Why writes this book?

To me

To be done is my real is

Not to be done is not my real is

But I do not know what is me not to be done, to be done

If I know doing then I would be focus on it

But my energy used to the not to be done

At now

If I can see what is to be done, I will focus for it

My energy uses effectively

Then my living help and doing real love other possible

To be done, not to be done

Living

Is to be done, not to be done

Living = {to be done, not to be done} = now living

If a to be done

0 1 2 3 4 5 6 7 8 9 0

If a not to be done

0 9 8 7 6 5 4 3 2 1 0

Here is now

To be done, not to be done try to go

Then, I try to this book

Then, a creation of know ledge comes to me

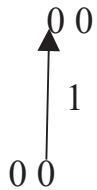

The other way

To be express to be done, not to be done

01010101010101

Here is 0 is completion of to be done

1 is incompleteness of not to be done

0 is completion

1 is going up of it is not completion

In the 1 is not completion has {to be done, not to be done}

01 again 01 again 01

If to be done then, it reaches at the completion of 0 {to be done}

If not to be done, then 1 in this possible {to be done, not to be done}

0 is always {to be done}

1 is sometimes {to be done} other times {not to be done}

But also, creation of knowledge comes to me

To be done, not to be done = $f(\text{use time useful, do not use time useful})$

To be done = $f(\text{use time useful})$

Not to be done = $f(\text{do not use time useful})$

Right before comes to me a creation of knowledge

To be done, not to be done = $\{\text{silence and clean clear, do not silence and clean clear}\}$

To be done = $f(\text{silence and clean clear})$

Not to be done = $f(\text{do not silence and clean clear})$

Much more direct influence to be done, not to be done is

Creation of knowledge to help done

But do not help done is old knowledge

To be done, not to be done = $\{\text{creation of knowledge, old knowledge}\}$

To be done = $f(\text{creation of knowledge})$

Not to be done = $f(\text{old knowledge})$

I'm still hard how to run

{to be done, not to be done}

Until now!

My living is really hard

Then infer that I'm in the not to be done of useless to be done

It must be my living effort useless time, there is no result

But hard to me

But truly infer that

My living is now is I really do not know but come to here

Here is some of to be done result is in here

Truly here by product is what is to be done result?

Then, not to be done result is what?

Another creature of knowledge comes to me now

To be done= F (runs on the ordained road)

Not to be done = F (runs on do not ordained road)

To be done is already for my road, then I walk on ordained road

Not to be done is do not already for my road, then my walk on do not ordained road

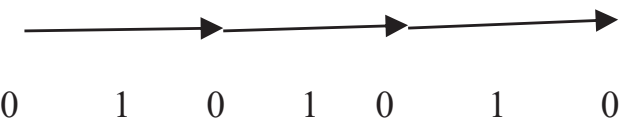

To be done= f (ordained road as host running) =

Is growing to be done

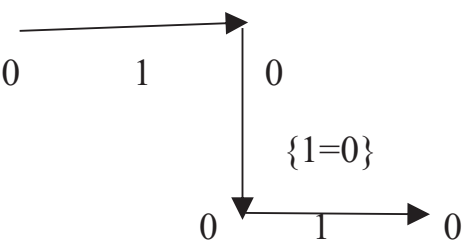

Not to be done = f (another ordained road as guest) =

Is not growing so that not to be done

Here is new explain

This is to be done

This is not to be done

Because to be done is

010101 runs to the preordained road to be carry ordained meeting to be helped for my growing to help other growing

Because not to be done is

0100010 runs not to the preordained road do not to be carry ordained meeting to be helped for my growing to help other growing

Here is infer comes

To be done is to be carry ordained meeting to be helped for my growing to help other growing

Not to be done is not to be carry ordained meeting to be helping for my growing to help other growing

To be done = {possible meet to be my growing, to be other growing}

Not to be done= {impossible meet to be my growing, to be other growing}

Right before creation of knowledge comes

Time also has to be done, not to be done

To do done time = {useful time}

Not to be done time = {useless time}

Here is also comes by product

What is useful time?

What is useless time?

Infer that

To be done is all combines to runs to the righteous soul living in destination place

Not to be done is do not combines not to runs to the righteous soul living in destination place

Infer again

As living host is to be combined to the righteous soul living

As living guest is not to be combined not to righteous soul living

In vague but I start to be done, not to be done

Until now I'm still vague

Why I'm vague book writing also is still vague

But this book also goes for getting a real helping me to grow to the
much deeper much more beyond righteous soul me

Please this book

To be done, not to be done

Help me my righteous soul creator to be done, not to be done come to
completion

Being righteous soul, all livings try to live with me

Being living righteous soul living then to be done

Righteous soul living me living in the other livings, all of other livings are around of me, so that I'm a center, here center means that secure from other wicked souls' revenge and breaking me

This is to be done, all is going itself

As living "righteous soul me"

Righteous soul me living is

Silence and clean clear of bubble of creation of knowledge

Righteous soul living behavior is

"it shares time with other, help other, but also doing real love other"

Righteous soul me living is

Vertical time running

Vertical time running is

Depth $\infty \times \text{width } 1/\infty = \text{vertical time running}$

Then, righteous soul living in destination place is in the deepest place

This vertical time running is accorded to righteous soul living behavior

"it shares time with other, help other, but also doing real love other"

Because

Horizontal time running is

Width $\infty \times$ depth $1/\infty =$ horizontal time

This is conflict to other to get wide so that this is not to righteous soul living behavior

But vertical time running is

Depth $\infty \times$ width $1/\infty =$ vertical time running

There is no width to be wide but only go depth so that, here there is no conflict to other

So that righteous soul me living and vertical time running is according

Righteous soul me living is helping creation of knowledge by product with living in silence and clean clear

So that the power of creation of knowledge push me to the vertical time running, truly infer that going deeper is really hard, here it needed to be feeling in excitement and pleasure that is from bubble of creation of knowledge

As the creation of knowledge going from $1/\infty$ to ∞ through vertical time running, creation of knowledge is governing form a righteous soul living in destination place a creator

Creation of knowledge

Bubble of creation of knowledge is pure true creation of knowledge

This new and true creation of knowledge help runs to the vertical time running

But here is needed energy

The energy is righteous soul living energy

The righteous soul living energy governing from cosmos law

Originality cosmos was silence and clean clear

So that, righteous soul running to the vertical time is accorded to silence and clean clear, because bubble of creation of knowledge is based on silence and clean clear

So that

It must be inferring that

Cosmos = vertical time running = creation of knowledge

Here is actor is righteous soul

Righteous soul me

Expand to cosmos

To be done is also

Righteous soul me

Vertical time running

Creation of knowledge

Righteous soul living energy

Cosmos law keeping

Then, to be done is realized

As righteous soul me living in the macro concept world

Around of me livings in the macro concept world approaching me

They try to be feeling in excitement from me

Because they are my guest

I'm their host

Righteous soul me

Is learning from yin and yang harmony

In the yin and yang harmony

Host and guest

Here is yin and yang harmony with righteous soul me

Yin=yang

Truly yin -, yang +

Yin is living as –

Yang is living as +

Based on it, yin and yang harmony is

Yin=yang

Yin- yang = 0

Yang- yin = 0

In this math formular

+ is host and - is guest

0 is silence and clean clear of cosmos

So that

Yin-yang to be also silence and clean clear

Yang- yin to be also silence and clean clear

Yin and yang harmony

“Yin- yang = 0, Yang- yin = 0”

So that

{yin-yang; silence and clean clear} = 0; cosmos of silence and clean clear,

{yang-yin; silence and clean clear} = 0; cosmos law of silence and clean clear

So that

Righteous soul living me is yin and yang harmony living

So that righteous soul living getting

Righteous soul living energy

As righteous soul living personally yang living, yin living, all has

Silence and clean clear, so that it must be living getting righteous soul living energy but to be fully righteous soul living energy to ∞ , then yin and yang harmony is fully required.

Righteous soul me living

Creation of knowledge ∞

Righteous soul living energy ∞

Then it must be “to be done”

If do not reach at the

Creation of knowledge ∞

Righteous soul living energy ∞

Then it must be sure of “not to be done”

“Being righteous soul, all livings try to live with me”

If righteous soul living me is

Creation of knowledge ∞

Righteous soul living energy ∞

Then, all livings come to me living with me

Because they know it

Righteous soul me is “to be done”

So that them to be done with righteous soul me “to be done”

Here is righteous soul me is host

Other runs to me are guest

So that

guest to be learn to be righteous soul me

but righteous soul me getting righteous soul living energy through
help to be righteous soul

this is really cosmos law excitement

righteous soul living in destination place a creator feel excitement

righteous soul me growing

creation of knowledge to ∞

righteous soul living energy also growing to ∞

so that

righteous soul me runs to the vertical time running or road

here is all hosts and guest all wait me to reach at there

it is really urgency

if I come on time

if I do not come on time

then,

a waiter to be getting creation of knowledge and righteous soul living energy from meeting me if I come on time, but if I do not come on time, then they are all nothing getting to be growing of theirs

if righteous soul me growing and on time reaching to ordained meeting guest and host, so that,

righteous soul me around of me

there are some host others are guest for me

so that my righteous soul me really urgent to connect to other

this is really important truth and creation of knowledge

my righteous soul to connect to other righteous soul

my righteous soul to connect to other righteous soul

my righteous soul to connect to other righteous soul

my righteous soul growing

other righteous soul sees me, then they also growing as my growing

my righteous soul living itself is teaching other righteous souls

but also, I'm a student to learn from other righteous soul behavior

school learning is old knowledge to help brain

righteous soul behavior is creation of knowledge which is from
bubble of creation of knowledge in the silence and clean clear of
righteous soul living in destination place

this is feeling

if my righteous soul living behavior is

“it shares time with other, help other, but also doing real love other”

Then other righteous souls feel pleasure and excitement

Here is

Derive from a creation of knowledge yin and yang harmony

Righteous soul me behavior of

“it shares time with other, help other, and doing real love other”

Is yin or yang place host living,

This is host living is decided from a cosmos law

The result is righteous soul living energy

So then

Guest is seeing a righteous soul behavior

Righteous soul me to other righteous soul is growing to

Creature of knowledge ∞

Righteous soul living energy ∞

How to do?

Host of righteous soul do righteous soul living behavior

“it shares time with other, help other, and doing real love other”

This is the way of completion of

Creation of knowledge ∞

Righteous soul living energy ∞

Cosmos law is governing

Micro concept world righteous soul living in destination place

And macro concept world now livings

Infer that now livings must be

“righteous soul to righteous soul connecting of righteous soul living behavior time and space”

So that

Creation of knowledge ∞

Righteous soul living energy ∞

Is really urgent critically it is

This both

Creation of knowledge ∞

Righteous soul living energy ∞

Is required to open righteous soul living in destination place

Because in the righteous soul living in destination place all righteous souls are getting

Creation of knowledge∞

Righteous soul living energy ∞

But also

This creation of knowledge ∞

Righteous soul living energy ∞

Will do as creator

A creator governing micro concept world and macro concept world

So that

A creator righteous soul living behavior

A creator creating righteous souls are all to be

Creation of knowledge is $1/\infty$

Righteous soul living energy is $1/\infty$

So then,

All of creator creating righteous soul voyage to the macro concept world, then creator help righteous souls voyage in the macro concept world

This is same

In the macro concept world living

As righteous soul me growing

Creation of knowledge ∞

Righteous soul living energy ∞

But even urgent but for other righteous soul

Host of a righteous soul me

Help getting creation of knowledge ∞

Help righteous soul living energy getting ∞

The same as

After safe returning to the righteous soul living in destination place

A righteous soul me being creator

So that as a creator creating righteous souls

They will move to voyage to the macro concept world

How hard macro concept world voyage?

Then

A righteous soul creator help

Getting creation of knowledge

Getting righteous soul living energy

Then

A righteous soul in the voyage macro concept world

Helping from righteous soul living in destination place

A creation of knowledge and other righteous soul showing and to be

helped to get creation of knowledge

And getting righteous soul living energy

Be sure

Creation of knowledge

Righteous soul living energy

These two tracks are only connected

Micro concept world to macro concept world

In the macro concept world

Righteous soul me

Meet other righteous soul

So then,

Righteous soul me connect to same time

Getting creation of knowledge ∞

Getting righteous soul living energy ∞

Helping other righteous soul getting creation of knowledge ∞

Helping other righteous soul getting righteous soul living energy ∞

Righteous soul to righteous soul meeting

Then it is sure

Righteous soul me

Other righteous soul

Both

Creation of knowledge to grow ∞

Righteous soul living energy to grow ∞

This is righteous soul living growing

In the macro concept world

Righteous soul living behavior

“it shares time with other, help other, but also doing real love other”

This behavior

Righteous soul livings spared wide

This is righteous soul livings excitement and pleasure

Righteous soul living is really urgent is

Keep getting creation of knowledge, righteous soul living energy

But, with this automatically coming up is excitement and pleasure

Righteous soul living is

Righteous soul me to other righteous soul me living is

Excitement and pleasure

Righteous soul to righteous soul

Is

Both helping me and other

Creation of knowledge to ∞

Righteous soul living energy to ∞

But also, excitement and pleasure

This is righteous soul me and other growing

This is righteous soul me and other righteous soul living

Excitement and pleasure

It is simple

Feeling is excitement just simple righteous soul living itself

All time and space meeting

Righteous soul to righteous soul helps righteous soul living mission
in the macro concept world completion

This is

Creation of knowledge ∞

Righteous soul living energy ∞

With excitement and pleasure

Righteous soul to righteous soul helps safe returning to the righteous soul living in destination place

1 to 0 of small livings, 9 to 0 is big livings

How to reach at 0

If 0 is righteous soul living in destination place

Then

Small livings way to reaching at 0 is 1 to 0

Big living s way to reaching at 0 is 9 to 0

Big living

01234567890

Small livings

010

Big living from 9 876543210 is really hard

But also

Small living

01234567890 is really hard

So that

Big living is 9 to 0

Small living is 1 to 0

This is only way to the righteous soul living in destination place

What is to be done

Small living is 1 to 0

Big living is 9 to 0

What is not to be done

Small living is 01234567890 is not to be done

Big living 1 to 0 is not to be done

Truly infer

The living way is huge difference ways

But reaching at the righteous soul living in destination place is

Small living 1 to 0

Big living 9 to 0

Small living 1 to 0 to be reaching at ∞ depth profound

Big living 9 to 0 to be reaching at ∞ high beyond

So that define again

Small living righteous soul living in destination place reaching to be done is 1 to 0, poor and righteous soul reach at the ∞ depth profound

Big living righteous soul living in destination place reaching to be done is 9 to 0, righteous soul reach at the ∞ high beyond

But here

In the macro concept world living is

Getting much more than other of mind living

Easy living of revenge and breaking of wicked soul living

Same

0123456789 of mind living

0123456789 of wicked soul

So that, wicked soul and mind living is friend

But this mind and wicked soul living all do not returning to the 0 of righteous soul living in destination place

Mind living is not relative with righteous soul living in destination place, mind is only living with body so that, mind it never ever impossible to the righteous soul living in destination place

So that mind living is independent

Mind with body is dependent

Mind help body

Truly infer of that

Mind with body only living at the macro concept world

So that

Truly

Mind and body also independent from righteous soul living in destination place

But righteous soul living at the body

Righteous to body is

Righteous soul is living at body

Body is living residence

So that

Righteous soul to body, so that righteous soul moves in out of body

Righteous soul resting place is body, but body is mind

So that

Mind to righteous soul is against

Righteous soul = $1/\text{mind}$

As mind to $1/\infty$ then righteous soul living

As $\text{mind} \infty$ to be then righteous soul living also $1/\infty$

As that

In the macro concept world

If living righteous soul body living then the condition is mind is $1/\infty$

If there is not mind is ∞ then

In this place

Mind with wicked soul friend so that here is wicked soul living

Here

Mind is not to be done

Wicked sis not to be done

So that

Mind living runs fast to 0123456789 without any suspicious

Wicked soul runs fast to 0123456789 without any suspicious

So that

Mind living

01234567789

Wicked soul

01234567890

This is not to be done

Because there is no reaching at the righteous soul living in destination place

Even mind is only living macro concept world

But wicked soul living is not 9 to 0, but only reach at 9

So that, this is not to be done

To be done is

1 to 0 profound

9 to be 0 beyond

This is to be done

This living only reaches at the righteous soul living in destination place

To be done is completion

Not to be done is not completion

Completion is reach at the righteous soul living in destination place

Incompletion is not reach at the righteous soul living in destination place

Completion is end

Incompletion is again run beginning

It is really difference

How feel

A climber completion to the high top of mountain then, it never ever doesn't have to again climb it

Feel excitement and pleasure but also beyond feeling

But a climber does not reach at the top, so that again climb the mountain

Do not feel excitement and pleasure but also do not beyond feeling

So that

The difference

Completion

And incompleteness is huge big difference

Much more difference is

Completion then, again beginning

But also, in the completion living in the righteous soul living in destination place

Completed righteous souls are

Righteous soul living energy is ∞

Creation of knowledge ∞

They are living all

Silence and clean clear of bubble of creation of knowledge

Their behavior is

It shares time with other, help other, but also doing real love other

But incompleteness

All livings are to be again beginning

So that, they are all nervous, easily anger, complain revenge and breaking in the wicked soul living in destination place

Much more hard living is

All livings are wicked soul livings

For only living easy living

There living is not any concerning to other

But also, to get it other to be hard

Revenge and breaking living

But also, much more hard living is

Incompletion livings are to be again living macro concept world but that is also, hard living, how to righteous soul living, but also a righteous soul save or not, the living is passive saving from a righteous soul

How to live?

Small living 1 to 0

Big livings 9 to 0

This living is completion

This is to be done

Small living

01234567789 mind living and wicked soul living

Big living

0123456789 mind living and wicked soul living

This living is not completion

This is not to be done

To be done living is real living keep a cosmos law

Not to be done living is not real living doing not keep a cosmos law

So that

Real living of

1 to 0 of small living

9 to 0 of big living

To be done living is this

1 to 0, 9 to 0 of completion is to be done

**There is no in the future there is, there is in the past
there is no**

“없는 것은 미래에 있고

있는 것은 과거에 있다”

From Seong Ju Choi books “forgive and doing real love”

I wrote in the book of forgive and doing real love, then this topic is
occurred to me, that is bubble of creation of knowledge

[There is no

In the future there is

There is

In the past there is no]

In the micro concept world is usual basic is “there is no”

But in the macro concept world is usual basic is “there is”

In the micro concept world is

There is no is do not change forever there is no

So that

There is no is truth, but there is “is not truth”

But in the macro concept world

There is truth, but there is no “is not truth”

Micro concept world and macro concept world is

$-1/\infty \sim +1/\infty$

This is micro concept point

From seong ju choi book micro concept

$-1/\infty$ is end of the past

$+1/\infty$ is beginning of the future

From $-\infty \sim -1/\infty$ is there is so that “is truth”

But

$+1/\infty \sim +\infty$ is there is no so that “there is no “is truth

Truly now living all of problems to solving creation of knowledge

So that if now macro concept world

If there are problems then in the macro concept world

$-\infty \sim -1/\infty$; historical world, of old knowledge all of living realization of living is based on there is, truth is there is

This is macro concept world

But micro concept world is

$-1/\infty \sim +1/\infty$ this is only in the macro concept world time living possible to get future creation of knowledge getting to solving now problems.

So that,

There is no, the truth is there is no

Point of micro concept world

Then,

There is no is truth

But there is not truth

Point of macro concept world

Then

There is truth

But there is not is not truth

Righteous soul living is

Macro concept world to micro concept world

So that

There is, there is truth to move there is no, there is no truth

There is old knowledge

There is no creation of knowledge

So that

In the macro concept world

A living if can go to the micro concept world then, the living feeling,
knowing bubble of creation of knowledge

Then a living is righteous soul living

Because the righteous soul living in the

$-1/\infty \sim +1/\infty$, just a second living

So that a righteous soul gets a creation of knowledge

If living at righteous soul living then, a righteous soul living in the
creation of knowledge living

“There is no in the future there is, there is in the past there is no”

So that

Now here living there is no then, if from future comes to there is

This is only at the micro concept point

$-1/\infty \sim +1/\infty$

Here is only possible

A region

A living

To be get a creation of knowledge then

It must live in the righteous soul living

Righteous soul living is

Silence and clean clear of bubble of creation of knowledge

Another saying is

Vertical time running

= depth $\infty \times$ width $1/\infty$ = go depth with creation of knowledge

Only this living and region to be get creation of knowledge

“There is no in the future there is, there is in the past there is no”

Yin and yang harmony power

Yin is – minus of living

Yang is + plus of living

Yin living is also living

Yang living is also living

Yin advantage and disadvantage

Yang advantage and disadvantage

Yin living has advantage and disadvantage

If living is living possible

But this living is

Loudly and dirty living of wicked soul living

Because this is living is not powerful living

So that,

Yin living advantage and disadvantage + wicked soul revenge and breaking energy of power

Yang living advantage and disadvantage + wicked soul revenge and breaking energy of power

This living is incompleteness

So that combined yin and yang

Yin living is possible

Yang living is possible

Yin and yang disharmony is

{Yin living advantage and disadvantage + wicked soul revenge and breaking energy of power} + {Yang living advantage and disadvantage + wicked soul revenge and breaking energy of power}

= yin and yang are not any effective because of wicked soul revenge and breaking energy of power

But yin and yang harmony

Yin living advantage and disadvantage + righteous soul “it shares time with other, help other, but also doing real love other”

Yin living possible

Yang living advantage and disadvantage + righteous soul “it shares time with other, help other, but also doing real love other”

Yang living possible

But even this is incompleteness also

To be completion to be required yin and yang combined to one

Yin and yang harmony is

{Yin disadvantage meet yang advantage} + righteous soul

“It shares time with other, help other, but also doing real love other”

Then yin living to be completion

{yang disadvantage meets yin advantage} + righteous soul

“It shares time with other, help other, but also doing real love other”

Then yang living to be completion

So then

Yin completion is depending on yang advantage

Yang completion is depending on yin advantage

Combined to be one

In this case only

Yin completion

Yang completion

“Yin and yang harmony power”

Is based on

{Yin completion of power} + {Yang completion of power}

= yin and yang harmony power

This is

Yin completion living to be helped

from [{Yin completion of power} + {Yang completion of power}

= yin and yang harmony power]

Yang completion living to be helped

from [{Yin completion of power} + {Yang completion of power}

= yin and yang harmony power]

This to be living

Yin ordained mission completion

Yang ordained mission completion

In the macro concept world

At first

As yin and yang harmony

Yin living of powerful living

Yang living of powerful living

This is absolutely depending on “Yin and yang harmony power”

Yin and yang harmony power

To be living possible in the poor living, cold living and dangerous living, it based on yin and yang harmony all of hard of obstacles to be moved to be living runs to the righteous soul living in destination place

“Yin and yang harmony power”

{Yin completion of power} + {Yang completion of power}

= yin and yang harmony power

Yin completion of power

“Yin completion of power shares time with yang and help yang and doing real love yang”

“Yang completion of power shares time with yin and help yin and doing real love yin”

This is

"Yin and yang harmony power"

This yin and yang harmony power

To be connected

Yin completion of power= host living in the yin place

Yang completion of power = host living in the yang place

Yin and yang harmony host and guest concept

Yin host – yang guest=0

Yang host – yin guest =0

Yin completion of power – yang guest =0

Yang completion of power – yin guest =0

Here is 0; cosmos law of silence and clean clear

Cosmos law will give righteous soul living energy as yin and yang harmony of increasing silence and clean clear of righteous soul energy

Yin completion of power – yang guest =0

Yang completion of power – yin guest =0

Yin and yang harmony of feeling excitement and pleasure is

Guest living

Yin completion of power – yang guest =0

Guest of yang feeling is really excitement and pleasure

Then,

Here is

Host of yin completion of power create guest of yang to be feeling excitement and pleasure so that

Cosmos law help host of yin to be increasing righteous soul living energy

Guest feeling is excitement and pleasure

This is in the macro concept world living fruit

Taste of living

As changed is same

If guest of yin feeling excitement and pleasure is

Taste of living

Cosmos law keep supply righteous soul living energy

The origin is

Host of yin = yin completion of power

Host of yang = yang completion of power

This is real living

This is righteous soul living excitement and pleasure

This is

“Yin and yang harmony power”

Righteous soul to be done(順理)

Creator of righteous soul living in destination place

A creator designed and create a righteous soul

A creator a righteous soul to be creator in the righteous soul living in destination place

To be a creator

A creator must be

Righteous soul yin and righteous soul yang harmony of 0 of righteous soul to be required, here is 0 is

Righteous soul yin (-) harmony with righteous soul yang (+) = 0

So that righteous soul of 0 is required

But also, a creator to be help all of righteous soul

A creating righteous soul to be completion

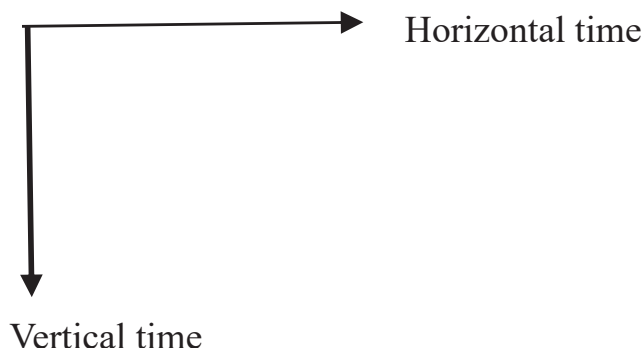

Creation of knowledge from $1/\infty$ to ∞

Righteous soul living energy from $1/\infty$ to ∞

These all mission is to be done(順理) at the macro concept world voyage

Righteous soul to be done(順理)

Vertical time running

Vertical time running is

$\text{Depth} \propto \text{width}^{1/\infty} = \text{running to vertical time to the depth}$

Righteous soul living is

Silence and clean clear

As the silence and clean clear, coincidence with bubble of creation of knowledge

So that

Silence and clean clear relative to the cosmos law silence and clean clear of righteous soul living energy

Creation of knowledge is relative with vertical time running

Going depth is required to be helping creation of knowledge

Depth $\infty \times \text{width} 1/\infty = \text{running to vertical time to the depth} + \text{creation of knowledge}$

In the righteous soul living in destination place

A creator creating a righteous soul to create a new creator

So that,

A creating righteous soul

At now is

Creation of knowledge $1/\infty$

Righteous soul living energy $1/\infty$

So that,

Creating a righteous soul start to voyage macro concept world

So then

Creator designed planned that

To be done(順理); if follow that creator designed and planned all of righteous soul to be completion of macro concept world voyage and after safe returning to the righteous soul living in destination place

What is to be done(順理) of righteous soul

A righteous soul living

Silence and clean clear of bubble of creation of knowledge

A righteous soul meets other righteous soul, but truly hard a righteous soul, so that a righteous soul doing real love a soul, if a soul is wicked soul, then do create righteous soul in the macro concept world

In this process

Cosmos law helping

If meet a wicked soul to be creating righteous soul then

Cosmos law help righteous soul, because a wicked soul is loudly and dirty so that, a righteous soul changed a wicked soul loudly and dirty to a righteous soul silence and clean clear

This is

“Righteous soul yin and righteous soul yang harmony of 0 of righteous soul to be required, here is 0 is

Righteous soul yin (-) harmony with righteous soul yang (+) = 0

So that righteous soul of 0 is required”

This is macro concept world a righteous soul voyage of to be done(順理) this is also as the practice to be role of creator in the righteous soul living in destination place

Truly infer that

At now here macro concept world a righteous soul meeting is really impossible so that, to be completion of to be don (順理), it must a righteous soul meet a wicked soul to be creating righteous soul

A righteous soul yin (-) + a righteous soul yang (+) = 0

This is Righteous soul “yin and yang harmony=0”

This is runs vertical time running

“Depth $\infty \times \text{width} 1/\infty =$ running to vertical time to the depth + creation of knowledge”

“Yin and yang harmony =0” running to the depth of righteous soul living in destination place

“Yin and yang harmony =0” runs vertical time running is also

To be done(順理)

So that

A righteous soul macro concept world to be done(順理)

If living a righteous soul, then all of righteous soul to be done(順理)
to safe returning to the righteous soul living in destination place

This is righteous soul to be done(順理)

If living righteous soul then it must be all to be done(順理)

“Righteous soul to be done(順理)”

Righteous soul

Silence and clean clear of bubble of creation of knowledge

“It shares time with other, help other, but also doing real love other”

To be done(順理)

Righteous soul creator agrees

Cosmos law aggress

Then

To be done(順理)

As this, all of righteous soul running vertical time is to be helping creation of knowledge

Then, here is

All strong relative

“To be done(順理)

Righteous soul creator agrees

Cosmos law aggress”

As this

All to be done

A righteous soul creation of knowledge $1/\infty$ to ∞

A righteous soul living energy $1/\infty$ to ∞

A righteous soul yin (-) meet a righteous soul yang (+) =0

In the end macro concept world voyage

All safe and excitement pleasure of returning to the righteous soul living in destination place

Body time and righteous soul time

body time is macro concept world time

body is righteous soul living place in the macro concept world

so that body is only living at the macro concept world

therefore, body time limit at macro concept world

righteous soul time is micro concept world time

righteous soul living at body in the of macro concept world

righteous soul living at righteous soul living in destination place in the micro concept world

so that righteous soul living both micro concept world and micro concept world

macro concept world time living as minor, but micro concept world time is major

therefore, righteous soul time is macro concept world and micro concept world both world

body living feeling end of macro concept world to be feeling fear

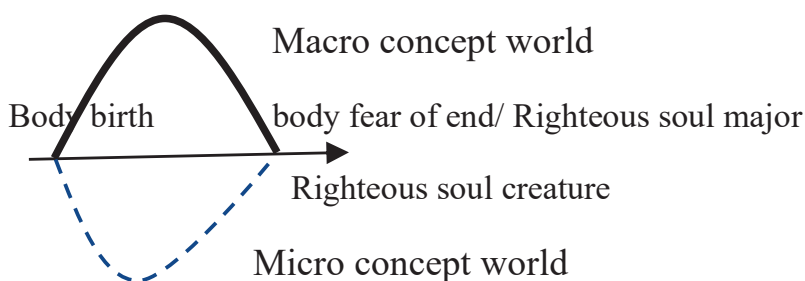

but righteous soul feeling is macro concept world is minor, but micro concept world major so that, end of macro concept world voyage then to be feeling is excitement and pleasure

cosmos law is influence both world macro concept world, micro concept world, so called body living time and righteous soul living time both influence

so that

cosmos law and righteous soul living energy

righteous soul living energy is also both time, body time and righteous soul time also.

Body living at only macro concept world fear

Righteous soul living at micro concept world and macro concept world excitement and pleasure

If living in the macro concept world, then end of macro concept world
changed into righteous soul major

But if living body living in the macro concept world end of fear

Body is only limit at the time of macro concept world

Even in the living at the macro concept world

All livings time is not same

If living body then only macro concept world time, so then

Body friend mind living, and wicked soul living

{body+ mind} living also limit in the macro concept world time

Living

{body + wicked soul} living is only macro concept world living easy
living, so that the living time is macro concept world, but wicked soul
is soul, so then, the wicked soul to be righteous soul food, after those
wicked souls are all fallen to the wicked soul living in destination
place, even they are soul of wicked soul, so then, their tasteful body
to be eaten by righteous soul, so then {body+ wicked soul} is animal
living in the macro concept world time

{Righteous soul + residence at body} living at macro concept world

as minor of righteous soul, so then righteous soul living at the body or some near move, but living at the body in safe, because macro concept world time righteous soul is macro concept world voyage time

Righteous soul living at the body, so that

Righteous soul tries to do mission completion

Creation of knowledge from $1/\infty$ to ∞

Righteous soul living energy from $1/\infty$ to ∞

$\{\text{Righteous soul}\} = \{\text{mind} = 1/\infty\}$

So then righteous soul and mind is really against

Righteous soul living is

“It shares time with other, help other, but also doing real love other”

But

Mind living is

“Getting much more than other”

Righteous soul living is

Micro concept world time living

Mind living is

Macro concept world living time

Mind living is not relative with micro concept world only for macro concept world time, so then

“Getting much more than other”

This is right in the macro concept world time

So that macro concept world mind livings are

Only getting much more than other is major concerning

But righteous soul main concerning is

“It shares time with other, help other, but also doing real love other”

Then,

Getting righteous soul living energy increasing

From $1/\infty$ to ∞

This is righteous soul runs to the righteous soul living in destination place safe

Righteous soul main concerning is

Keep righteous soul living in the macro concept world

So that

Righteous soul

Silence and clean clear of bubble of creation of knowledge

As helping creation of knowledge

Righteous soul runs to the vertical time running

This is righteous soul living in destination place

This is all

After mind $=1/\infty$

Truly infer that

Macro concept world

Major is {mind +body}

{getting much more than other + healthful strong body} is

Macro concept world instinct so that, this is at the macro concept world time living all sympathy

This is major living

Macro concept world body time is this

Who knows?

This living is fear at the end of macro concept world time

Why fear?

In the macro concept world time

Only living at the macro concept world body is limit at macro concept world, this is fear, because body living is to be disappearing

Who know?

Disappearing feeling fear

It is natural

{mind +body}

In the macro concept world living is

Only

Getting much more than other with strong health body

Then, this is natural in the macro concept world

Who denied?

But

Righteous soul living is based on $\text{mind} = 1/\infty$

“It shares time with other, help other, but also doing real love other”

Cosmos law cosmos begins that silence and clean clear

So that righteous soul living is

Silence and clean clear of bubble of creation of knowledge

This living of righteous soul

Help cosmos to be silence and clean clear

So that

Righteous soul keeps a rule of cosmos

Macro concept world living

{mind +body}

Getting much more than other with strong health body is distance to cosmos law keeping and living silence and clean clear, so that

{mind+ body} living is not relative

Creation of knowledge $1/\infty$ growing to ∞

Righteous soul living energy $1/\infty$ growing to ∞

This is called as from righteous soul living

Then,

{mind+ body} as ignorance livings

{mind +body}

Do not know

“It shares time with other, help other, but also doing real love other”

They do not know

After end of macro concept world, body time

Then, next is righteous soul living time is

Macro concept world after micro concept world of righteous soul living in destination place is

So that righteous soul livings called as to the {mind+ body} as ignorance livings

Say again

{mind+ body} living limit at macro concept world only, so that end of time is fear

{righteous soul} living is macro concept world and micro concept world both living, so that end of macro concept world to be begin micro concept world with excitement and pleasure

Growing is to be done(順理)

Growing is to be done(順理)

Do not growing is not to be done

Growing is to be helped from righteous soul creation of knowledge

Do not growing to be not helped from righteous soul creation of knowledge but to be helped old knowledge

Growing = helping {creation of knowledge 1+creation of knowledge 2+ creation of knowledge3... = $\sum$ (creation of knowledge) n = to be done of growing

But now to be growing = helping {old knowledge1+old knowledge2+

Old knowledge3...= $\sum$ (old knowledge) n = to not to be done of growing

Creation of knowledge to be creating from a righteous soul living of silence and clean clear of bubble of creation of knowledge

Old knowledge to be developing of wicked soul living of loudly and

dirty

Growing of to be done

= righteous soul living of silence and clean clear

Do not growing of not to be done

= wicked soul living of loudly and dirty

Growing to be reaching at the completion of it, and safe returning to the righteous soul living in destination place

Do not growing not to be reaching at the completion of it, but do not returning to the righteous soul living in destination but to fall to the wicked soul living in destination place

In the macro concept world livings are

Growing is

{righteous soul +body} =righteous soul living

Do not growing is

{wicked soul +mind + body} =wicked soul living

Macro concept world living

A living of righteous soul to be done of completion then, the living result is safe returning to the righteous soul living in destination place

But a living of a wicked soul not to be done of incompleteness then, the living result is do not safe returning to the righteous soul living in destination place, but fallen to the wicked soul living in destination place

Growing is

Creation of knowledge to be reach at

$= \sum (\text{creation of knowledge}) \neq \text{creation of knowledge} \infty$

Righteous soul living energy to be reach at

$= \sum (\text{righteous soul living energy}) \neq \text{righteous soul living energy} \infty$

= completion

= reach at the righteous soul living in destination place

= living to the end

Do not growing is

Do not reaching at creation of knowledge ∞

Do not reaching at righteous soul living energy ∞

=incompletion

= do not reaching at righteous soul living in destination place

= again, doing something for {living to the end}

Growing completion is end of the design all process

Do not growing incompletion is do not end of design all process

It is really difference

The one is completion

The other is incompletion

The one is at the righteous soul living in destination place

The other is at the wicked soul living in destination place

The one is to be done of meeting creator of righteous soul me

The other is not to be done of do not meet creator of righteous soul me

Growing of to be done is

Righteous soul living of

Silence and clean clear of bubble of creation of knowledge

Here is creation of knowledge creating

But also,

In the macro concept world meeting a righteous soul

So then,

To be done of completion is

Meet a righteous soul who are living on creation of knowledge

$= \sum (\text{meeting a righteous soul}) n = \text{so that righteous soul me reaching at creation of knowledge } \infty$

To be completion of righteous soul me creation of knowledge completion is

$= \{\text{righteous soul me living of silence and clean clear of bubble of creation of knowledge} + \text{other of righteous soul meeting of creation of knowledge}\} = \text{righteous soul me creation of knowledge } \infty$

To be done of completion

Righteous soul living energy ∞

= {righteous soul me silence and clean clear + as it shares time with other, help other, but also doing real love of other that helps other inside to be silence and clean clear} = righteous soul me righteous soul living energy ∞

“Growing is to be done(順理)”

Growing is from creation of knowledge $1/\infty$ to creation of knowledge ∞ , and righteous soul living energy $1/\infty$ to ∞

This is completion of macro concept world living

Here is

Growing to be done important clue is

To get creation of knowledge also meet other of righteous soul

To get righteous soul living energy also with other, help and doing real love result is cosmos law give righteous soul living energy

Righteous soul living is

“It shares time with other, help other, but also doing real love other”

= righteous soul me + other of righteous soul = righteous soul completion of to be done(順理)

Silence clean clear of to be done

Silence and clean clear

To be done

To be done of silence and clean clear

Infer that

Loudly and dirty

Not to be done

Silence and clean clear

To be done

But to be silence and clean clear

Need to be clear of loudly and dirty

Silence and clean clear = to be done

Loudly and dirty = not to be done

To be done is required not to be done

So that to be done is changing from not to be done to be done =

Loudly and dirty changing to silence and clean clear

To be done is silence and clean clear

So then,

Silence and clean clear connect to creation of knowledge

Because in the silence and clean clear feel silence bubble of creation of knowledge

So that

Silence and clean clear = creation of knowledge

= at first clear loudly dirty to silence and clean clear then it comes creation of knowledge = hard to reach at

But

Loudly and dirty = old knowledge

= easy it comes

This living is

Macro concept world

{Mind + body} = problems solving way is depend on old knowledge

So that {mind+ body} is living at

“Loudly and dirty = old knowledge
= easy it comes”

If a living on the “{mind +body}

Limit at living old knowledge

But

As $\text{mind} = 1/\infty$

Then,

Mind = loudly and dirty of old knowledge

So then

As $\text{mind} = 1/\infty$ then

{ $\text{Mind} = 1/\infty = 0$ + body} = problems solving way is depend on old knowledge

So that {mind+ body}

As that

Mind= $1/\infty$ then

{() +Body} problems solving way is depend on ()

So that

Infer that

Righteous soul = silence and clean clear of bubble of creation of knowledge

Then

Righteous soul = $1/\text{mind}$

$\{(\text{Righteous soul}) + \text{Body}\}$ problems solving way is depend on (creation of knowledge)

$\{\text{Silence and clean clear of bubble of creation of knowledge} + \text{body}\}$ problems solving way is depending on creation of knowledge

How to mind = $1/\infty$

Mind is strong connect to body

So that usually

$\{\text{Mind} + \text{body}\}$ is macro concept world living

No one criticize it

If all living mind living then, this is general living way

But

That is living is

Loudly and dirty of old knowledge

{Mind +body} = old knowledge

This is impossible growing

This living is only living based on old knowledge

So that

{mind+ body} living even produce

Loudly and dirty but living on before did, now do

But truly

It is do not explain problems solving

And growing progress

What can be explain?

This is

As a living a moment get

Mind = $1/\infty$

Then a living moment feeling

Silence and clean clear, it bubbles of creation of knowledge

So then

A living does create a new and creation of knowledge

So that

Righteous soul = 1/mind

{(Righteous soul) + Body} problems solving way is depend on
(creation of knowledge)

= a living does create a new and creation of knowledge

This is expanding creation of knowledge

= this is growing changed old knowledge to creation of knowledge

Old knowledge = loudly and dirty

Creation of knowledge = silence and clean clear

“Silence clean clear of to be done”

{Creation of knowledge = silence and clean clear} = to be done

{Old knowledge = loudly and dirty} = not to be done

Unit of to be done is growing to changed old knowledge to creation of knowledge

To be done of growing is beginning to be reaching at the completion

But now to be done of do not growing is end, do not reaching at the completion

Only

“Silence clean clear of to be done”

Silence and clean clear = to be done(順理) = Righteous soul = creation of knowledge

This is principle of living

It is to be done(順理)

Yin and yang harmony with to be done(順理)

Yin and yang harmony

In the macro concept world living is yin and yang living are general

In the micro concept world righteous soul living in destination place ordained yin and yang meeting and living

In the righteous soul living in destination place create righteous soul yin, or righteous soul yang

Righteous soul creator creating righteous soul yin for save a failing completion of living before, so that righteous soul yin ordained to meet and save a wicked soul yang, so that righteous soul yin meet ordained to be save of create a righteous soul yang and safe bring to the righteous soul living in destination place

So that

A righteous soul yin meet a wicked soul yang is to be done(順理)

The same as a righteous soul yang created at to save a yin losing completion macro concept world voyage before world, so that, righteous soul yang ordained to meet a wicked soul who to be save and creating a righteous soul and being yin safe to the righteous soul living in destination place

So that

Righteous soul yang meet wicked soul yin is to be done(順理)

Yin and yang harmony is to be done(順理)

To be done of yin and yang to be explain the way of mathematics

Yin = yang

Is living yin living

Yang living

So, then a living can live without meeting yin to yang, yang to yin

This is not to be done, this living is macro concept world mind living of getting much more than other, but also wicked soul easy living

Wicked soul easy living is

If a yin does not meet a yang, then, it doesn't have to do living a righteous soul, a righteous soul meet a wicked soul and creating righteous soul, this living is huge hard and not easy living so that, wicked soul so not meet living, but it also not to be done

To be done of (順理) of cosmos law keeping living is

Host, guest, cosmos law

Host is cosmos law of keeping position so then

Yin position is inside is host

Yang position is outside is host

Cosmos law only measure host living is righteous soul living or wicked soul living, if righteous soul living then keep giving righteous soul living energy, if wicked soul living then wicked soul living energy

Righteous soul living of host is righteous soul living behavior

“It shares time with other, help other, but also doing real love other”

Host living of righteous soul do ordained wicked soul righteous soul living behavior

So that,

A host living is “it shares time with an ordained wicked soul, help an ordained wicked soul, and doing real love an ordained wicked soul to create an ordained righteous soul”

Here is

Righteous soul keeps a cosmos law, so that as keep it then, cosmos to be being silence and clean clear.

Host righteous soul living is silence and clean clear

Host ordained wicked soul to be creating to righteous soul who is silence and clean clear,

As like cosmos is silence and clean clear

So that

Host of righteous soul get a righteous soul living energy from cosmos law

But also,

A guest of ordained wicked soul gets a creation of knowledge from host, this is to be creating way of righteous soul, so that guest keep growing from wicked soul to righteous soul,

This is yin and yang harmony to be done of (順理) cosmos law

It is not known who is righteous soul who is wicked soul

But

A host of righteous soul meet an ordained wicked soul

Here is really important

To be done is ordained yin, yang meet

But if not, wrong meeting is not to be done

Here is really critically important

A guest to be wait to meet ordained meeting a righteous soul, so then if a time meet it really do not miss, a guest living urgent, if lose meeting time, then how to do,

In the cosmos law, saver is a righteous soul, to be saved is a wicked

soul, so that, a wicked soul to be save,

Wait to meet,

Truly infer that

A righteous soul remember creator showed, so that a righteous soul seeks original ordained wicked soul, but a wicked soul living is also mind living to get much more than other, or wicked soul easy living of changed it, then a righteous soul will not to be ambiguous so then, it also really sorrowful it, cross over a line, pass it

Truly infer that

In the macro concept world living is

Save, to be saved of a righteous soul to be save a wicked soul

Who know I'm a wicked soul?

Who knows I'm a righteous soul?

Before meeting yin and yang is really urgent

Living meet yin and yang harmony

Living originality living

Whether will I to be saved from an ordained righteous soul

Before meeting

Living is originality living is really required

Face, sounds and characteristics

Creator give originality is has strong means, it must be required to be keep it, because to meet ordained yin, and yang

If I explain yin and yang harmony

Yin=yang

All yin living possible

Yang living possible

So that,

In the macro concept world living easy living then

Yin living only living is easy living because for easy living do not living “to be done(順理), this living is nothing relative with

To be done(順理) useless living do not keep a cosmos living, then the living is not helpful to cosmos so that cosmos will not give a righteous soul living energy, then without it, the living is out of energy living is soon out of energy, then who knows after

So, then it is only yin and yang harmony

A host of righteous soul meet a wicked soul to be save a righteous soul and creating after safe returning to the righteous soul living in destination place

Here is case

A yin is host of a righteous soul this is only clear

Yin= yang all equality living it is true

So then,

Yin – yang = 0

Here is 0 is cosmos law of silence and clean clear

In the yin and yang harmony is

Meet yin and yang yin and yang harmony

Inside is yin is host

Outside is yang is host

In this case

Yin-yang=0

Then, yin is host of righteous soul

Yang is guest of wicked soul

Host living is same as righteous soul living

“It shares time with guest, and help guest and doing real love guest”

So that

Host yin= righteous soul

Host living is required to be keep righteous soul living energy getting is behavior of righteous soul living

“It shares time with guest, and help guest and doing real love guest”=getting righteous soul living energy getting from cosmos law

Why cosmos law is silence and clean clear, so that host help it, but also host keep a cosmos law

guest yang = wicked soul to be saved from a righteous soul yin

so then, a righteous soul meet ordained a wicked soul yang

Guest yang = wicked soul

Guest living is required to be wait to be meet ordained righteous soul, meet and from a righteous soul

Guest to be shared from a righteous soul host,

Guest to be helped form a righteous soul host how to be creating a righteous soul, that is creation of knowledge, so that guest increasing creation of knowledge

Guest to be doing real loved from a righteous soul, so that guest of wicked soul feels excitement and pleasure but also keep going with a righteous soul, and in the end to be creating a righteous soul

Yin-yang=0

Host of Righteous soul yin= {getting righteous soul living energy from $1/\infty$ to ∞ } completion of righteous soul living in destination place living condition

Guest of wicked soul yang = {getting creation of knowledge from $1/\infty$ to ∞ , so that know that how to be living then righteous soul living, so that completion of creation of knowledge keep righteous soul living condition completion

Here is

Yin-yang=0 yin and yang harmony

{host of righteous soul yin} + {guest of wicked soul yang} yin and yang harmony living

So that

Host righteous soul living completion of

Righteous soul living energy ∞

Guest ordained a wicked soul to be creating of

Creation of knowledge ∞

In the end

Yin-yang=0 = {righteous soul living energy ∞ of host} + {creation of knowledge ∞ of guest} = cosmos law is feeling silence and clean clear

= righteous soul living in destination place condition all clear of completion = safe returning to the righteous soul living in destination place as righteous soul yin and righteous soul yang

This righteous soul yin righteous soul yang living to the end in the righteous soul living in destination place with excitement and pleasure

Living as a righteous soul creator in the righteous soul living in destination place

in the nothing place, it creates a new creation

nothing something and something to be zero of nothing creating a new creation

creation of knowledge it comes with mind is $1/\infty$, there is no residue, but there is only silence and clean clear

so then,

silence and clean clear = nothing

silence and clean clear it bubbles of creation of knowledge = nothing to create a new something

based on nothing it creates something

at first time

nothing + something = creation of knowledge

but at time runs then,

{something is old knowledge} this is changed into residue of old knowledge, this is inside at residue of old knowledge which not anymore useless helping a living to be growing, so that, residue of old knowledge it needed to be nothing

This nothing is

All of old knowledge of residue to be $1/\infty$ to 0

At time of residue of old knowledge 0, then in the place to be feeling

Silence and clean clear

This is beginning of creation of creation of knowledge

So then,

To be get a creation of knowledge

To be reach at the old knowledge of residue to be being cleaning of zero, it is required.

Creation of knowledge is really urgent

Because creation of knowledge helping vertical time running

Vertical time running is

Depth $\infty \times$ width $1/\infty = \text{constant}$

Horizontal time running

Width $\infty \times$ vertical $1/\infty = \text{constant}$

$\{\text{Depth } \infty \times \text{width } 1/\infty = \text{constant}\}$ connect to creation of knowledge

$\{\text{Width } \infty \times \text{vertical } 1/\infty = \text{constant}\}$ connect to old knowledge

So then reverse saying then

To be getting creation of knowledge is

from $\{\text{Width } \infty \times \text{vertical } 1/\infty = \text{constant}\}$ horizontal time running to
 $\{\text{Depth } \infty \times \text{width } 1/\infty = \text{constant}\}$ vertical time running this is
creation of knowledge creating condition is completion

this is newly saying that

if a region living horizontal time living

$\{\text{Width } \infty \times \text{vertical } 1/\infty = \text{constant}\}$ connect to old knowledge

Then, here is creation of knowledge is perfect $1/\infty$ of zero

But if living

Vertical time running region is

$\{\text{Depth } \infty \times \text{width } 1/\infty = \text{constant}\}$ connect to creation of knowledge

Then, here is creation of knowledge is perfect ∞

Here only it comes creation of knowledge

Creation of knowledge is nothing

Nothing goes to something then it reaches at old knowledge

So that it is changed possible

Nothing to something

Something to nothing

This is micro time changing

This is macro time changing is happening

This is to be done(順理)

Here is not to be done is

It is impossible but

A region is kept something then required to get a nothing of creation of knowledge then,

Here is

Something + {something old knowledge} here is even to deceit creation of knowledge but there is no creation of knowledge

In the something, then it dreams to get nothing of creation of knowledge then, if it occurs of deceit but that is still old knowledge

This is impossible of not to be done

To be done of 順理

it required

something to nothing

residue of old knowledge to be zero

here is loudly of dirty to be changed in to

silence and clean clear

to be getting creation of knowledge

it required to be silence and clean clear of bubble of creation of knowledge

this is growing creation of knowledge engine

this region to be growing

a living to be growing to the righteous soul living

creation of knowledge from $1/\infty$ to ∞

righteous soul living energy from $1/\infty$ to ∞

yin – wicked soul= yang-wicked soul of excitement of safe living

yin and yang harmony

yin = yang

yin- wicked soul = yang – wicked soul

yin is host in inside, yang is host in outside

yin- wicked soul = yang – wicked soul

so then,

yin is inside defense wicked soul

yang is outside defense wicked soul

truly here is why yin and yang harmony are required

yin is responsibility defense wicked soul in inside as host

yang is responsibility defense wicked soul in outside as host

yin and yang harmony are based on

yin inside host living of righteous soul, then

yin inside host

it shares time with guest and help guest and doing real love guest

= this is perfect defense wicked soul then, it is possible

But if inside host cannot do not defense wicked soul then,

It is impossible in the inside “it shares time with guest, and help guest, but also doing real love guest”

As then,

Inside host do not do as righteous soul, but as losing war to the wicked soul so that, inside host is changed into the host of wicked soul, so that in the host of yin is host of wicked soul yin, this is wicked soul host yin living is “revenge and breaking other”, so that

Inside host wicked soul breaking inside, so that

Inside guest to be treat as “revenge and breaking guest”

Guest feeling in the inside to be really “Is not excitement but also do not feeling in interesting there is no pleasure”, guest living forgotten excitement and pleasure in the living of macro concept world

Strange thing happened

As mind to be ∞ , but there is no excitement and pleasure

Here is change saying money making is increased but excitement and pleasure is deceased

This is there is no host righteous soul, but all host wicked soul, so that

Usually expect to be feeling excitement and pleasure but it is impossible because there is no any host of righteous soul

If host of righteous soul yin

If host of righteous soul yang

Then,

Yin- yang = 0

0; cosmos law; silence and clean clear

Righteous soul yin of host

Righteous soul yin feeling silence and clear

So that, host living is righteous soul behavior

Righteous soul yin of host shares time with guest, help guest and doing real love guest, then, how feel guest?

A guest living is really excitement and pleasure

This is strong righteous soul yang

Then

0=yang – yin

Strong righteous soul host yang feeling silence and clean clear

Gust righteous soul yin feeling silence and clean clear of, guest

feeling is safe from strong righteous soul yang secure defense outside
wicked soul

Guest of righteous soul wicked soul feeling is safe from strong host
yang defense from wicked soul attacking

Here is infer that

In the host of righteous soul yin supply to the righteous soul yang
guest, the guest feeling excitement and pleasure

In the host of righteous soul yang supply to the righteous soul yin
guest, the guest feeling is safe living in the macro concept world

Yin and yang harmony

Yin- wicked soul= yang – wicked soul

This equation is trying to show, yin living and yang living

Yin and yang harmony is

Yin-yang=0

Yang- yin=0

This both equation is completion is yin and yang harmony

In the macro concept world living righteous soul living is

$\text{Yin-yang}=\text{yang-yin}=0$

Righteous soul yin host supply to the guest yang pleasure and excitement

Righteous soul yang host supply to the guest yin safe living in the time of macro concept world

Yin and yang harmony is macro concept world

Righteous soul yin and yang to be completion required

As yin and yang harmony

Righteous soul host yin helps righteous soul yang guest to be completion

Yang creation of knowledge from $1/\infty$ to ∞

Yang righteous soul living energy from $1/\infty$ to ∞

Righteous soul host yang helps righteous soul yin guest to be completion

Yin creation of knowledge from $1/\infty$ to ∞

Yin righteous soul living energy from $1/\infty$ to ∞

As that

Yin and harmony living in the macro concept world is

Safe and excitement and pleasure living running to the righteous soul living in destination place

This is yin and yang harmony

Yin and yang help each other to be completion in the macro concept world, so that, yin and yang is really only helper in the macro concept world

But also,

Yin and yang harmony is

Only way to the macro concept world to micro concept world righteous soul living in destination place

Yin is inside responsibility

Yang is outside responsibility

So then,

Yin living depend on {yin inside responsibility + yang outside responsibility}

Yang living depend on {yin inside responsibility + yang outside

responsibility}

In the macro concept world

Yin living, yang living is yin and yang harmony living only

If living yin and yang do not harmony living then, here is there is no safe living and there is no excitement and pleasure living

As disharmony between yin and yang

Then, it is impossible

Yin completion of

Yin creation of knowledge from $1/\infty$ to ∞

Yin righteous soul living energy from $1/\infty$ to ∞

Then, it is impossible

Yang completion of

Yang creation of knowledge from $1/\infty$ to ∞

Yang righteous soul living energy from $1/\infty$ to ∞

So that only way is

Yin and yang harmony is only living

Yang guest feeling in excitement and pleasure

Yin guest feeling is in safe living in the macro concept world

Righteous soul yin creates to the guest yang excitement and pleasure
in inside

Righteous soul yang creates to the guest yin safe living in the macro
concept world

So then,

Yin is physically not strong

Yang is physically strong

Not strong yin helps yang feeling in excitement and pleasure

Strong yang helps yin feeling in safe living

So that

Both righteous soul yin and yang living in the macro concept world

Safe and excitement and pleasure living

{Growing + anti growing} = completion

{Growing + anti growing} = completion

{Growing to be done + growing not to be done} = completion

While growing then my growing is not to be done of anti- growing

The time was really hard time

But cosmos and creator of righteous soul knows that anti-growing is also needed to be completion

So that

Growing is righteous soul

Anti- growing is wicked soul

To be completion is only reaching destination place the road of righteous soul

All living around of me to be seen all wicked souls who are anti my growing, they are all use me for their easy living

Growing is around of me righteous soul

They are righteous soul living behavior

“It shares time with me, help me, but also doing real love me”

But anti-growing is around of me all wicked souls

They are all interesting of their wicked soul benefit, so that wicked soul revenge and breaking growing me so that my growing is stop but only overcoming to be survive righteous soul living

Righteous soul me is

Antenna of my righteous soul to be spread around of me

Radar of my righteous soul to be see neighbor righteous soul to be help my growing

The same as a wicked soul has antenna and radar also

Wicked soul antenna tries to send deceit wicked soul old knowledge

Wicked soul radar tries to adsorb to be easy living other souls it

Righteous soul me

Antenna send creation of knowledge neighbor to be growing and runs to the righteous soul living in destination place

But wicked soul me

Must be

Antenna sending old knowledge to the others to be anti – growing so that other to be runs to the wicked soul living in destination place

So that will I be

Help neighbor to be completion

Do not help other not to be completion

My living is really urgent around of me being completion of living condition of incompleteness of living condition

Antenna righteous soul me

East west south and north all living here my sending righteous soul living creation of knowledge

If my living is wicked soul then

My wicked soul antenna old knowledge not to help other growing

The same as my living is

“{Growing + anti growing} = completion”

Here is other expression

{growing=neighbor righteous soul antenna creation of knowledge} +
{anti growing = other wicked soul antenna old knowledge} =
completion

Truly

A righteous soul radar seeks creation of knowledge

If a righteous soul seeks neighbor righteous soul creation of knowledge, then, a righteous soul seeks using radar, if get then, the righteous soul connects to neighbor righteous soul

A righteous soul connects to neighbor righteous soul, so then

A righteous soul gets a creation of knowledge which help a righteous soul macro concept world mission clear

A righteous soul mission is

Creation of knowledge is growing from $1/\infty$ to ∞

Righteous soul living energy growing from $1/\infty$ to ∞

A righteous soul growing means that

“Creation of knowledge is growing from $1/\infty$ to ∞

Righteous soul living energy growing from $1/\infty$ to ∞ ”

A righteous soul does not grow means that

Creation of knowledge is not changing from $1/\infty$ to ∞

Righteous soul living energy also do not change from $1/\infty$ to ∞

So that

Righteous soul living helpers

Cosmos law

Righteous soul creator

Required all righteous soul behavior

“It shares time with other, help other, but also doing real love other”

This is only way to runs to the righteous soul living in destination place

Righteous soul living behavior

Righteous soul antenna spread righteous soul creation of knowledge world wide

A others radar gets it then

Other living gets a righteous soul creation of knowledge

This is really urgent to be completion

How to complete macro concept world mission clear

At now

A righteous soul to be segregated from huge number of wicked souls who ban a righteous soul growing

Wicked soul old knowledge

One time was creation of knowledge but as time flow then, creation of knowledge changed into old knowledge so that wicked souls all knows old knowledge wicked soul feel only this old knowledge is clear but creation of knowledge they do not know that is knowledge or not, because wicked souls are remained at past of old knowledge

Old knowledge only living at horizontal time living

Horizontal time is

Width $\infty \times$ depth $1/\infty = \text{constant}$

To live only me easy living other to be wicked soul revenge and breaking target only

But creation of knowledge is

100% creation of knowledge of real truth it

This creation of knowledge is to help righteous soul to be growing

Creation of knowledge possible to vertical time running

Vertical time is

Depth $\infty \times$ width $1/\infty = \text{constant}$

Even living same energy

But wicked soul living is old knowledge horizontal time running so that a wicked soul living easy living, other wicked soul to be hard living, here is there is no any creation of knowledge of added anergy but only there is no increasing any energy of old knowledge

Old knowledge = do not increased new and creation of energy

Creation of knowledge = do increasing new and creation of energy

So that

Old knowledge

It needs to be getting other energy only

So that

{anti growing of old knowledge} = do not completion

But creation of knowledge

It doesn't necessary other energy but possible a righteous soul of personal

{growing of creation of knowledge} = do completion

In the macro concept world

So then

It is really critically important is

If a region of old knowledge, then all of livings are to be incompleteness

If a region of creation of knowledge, then, all of livings are to be completion

In a region who supply creation of knowledge?

In a region who supply old knowledge?

If a region vertical time living a righteous soul is then, a region to be supplied to creation of knowledge which is help growing

Creation of knowledge from $1/\infty$ to ∞

Righteous soul living energy from $1/\infty$ to ∞

If a region horizontal time living a wicked soul is then, a region to be supplied to old knowledge which is not help growing

So that

Still creation of knowledge is $1/\infty$

Righteous soul living energy is $1/\infty$

If a righteous soul living in the time of vertical time, then, the living
to be helped from neighbor righteous souls

So that

A righteous soul radar gets it and using to be righteous soul growing

A righteous soul antenna spared to help other to be growing also

So that

{Growing + anti growing} = completion

To be completion both all of righteous souls

Sending through antenna creation of knowledge

Accepting through radar creation of knowledge

As soon as it

Sending antenna creation of knowledge to help other growing

My righteous soul living depends on other righteous soul living

Other righteous soul living depends on my righteous soul living

Vertical time to horizontal time

Vertical time; Righteous soul and creation of knowledge

Peace

Increasing new region

Getting deeper and wider

Opportunity increasing

Yin and yang harmony

Family strong

Smile of Excitement and pleasure

To be done (順理)

Cosmos law helping

Righteous soul creator helping

Silence and clean clear

Running to the righteous soul living in destination place
completion

to be living at the righteous soul living in destination place

to be creator to create new righteous soul

Horizontal time: wicked soul and old knowledge

war

do not increase new region

do not getting deeper and wider, same territory

opportunity decreasing

yin and yang do not harmony

family not strong

crying of sorrowful and do not excitement and pleasure

not to be done

cosmos law does not help

righteous soul creator does not help

loudly and dirty

running to the wicked soul living in destination place

incompletion

prepare to challenge to be completion in the macro concept world

waiting to run to again voyage in the macro concept world

Host knowledge and guest knowledge

In the yin and yang harmony

Host and guest

Yin and yang

But also, it has cosmos law

And now, host knowledge and guest knowledge

Host knowledge is host growing creation of knowledge

guest knowledge is not help growing guest of old knowledge

so then,

yin and yang harmony possible

host knowledge 100%

guest knowledge 0%

is preferable

but if not

yin and yang do not harmony

host knowledge 0%

guest knowledge 100%

in the living macro concept world

a living is changed host to guest, but also guest to host

so that, all of livings relative with

host knowledge and guest knowledge

here is strong point is

host knowledge help host growing

guest knowledge is not help growing

so that

host knowledge is based in creation of knowledge

silence and clean clear

but guest knowledge is based on old knowledge

loudly and dirty

so then, if a living

100% host knowledge is silence and clean clear

100% guest knowledge is loudly and dirty

If a living only guest living then 100% of loudly and dirty

If a living is only host living then 100% of silence and clean clear

This is really urgent

A living space all occupied by guest living knowledge 100% of loudly and dirty

This living is really sorrowful

A cosmos law feels that how piety of guest living of old knowledge

A living used all guest living do not use host living

Then,

Here a living it never ever living yin and yang harmony

As do not know yin and yang harmony

Then,

Keep yin and yang do not harmony of guest knowledge 100%

So that, a living host place living still guest living of 100%

So that,

Its possible original host guest knowledge 100%, now guest feeling knowledge 100%, so then

Truly infer that

Yin and yang do not harmony

In there

Guest knowledges are strong

This guest knowledge is same in the host place

So that

In and out is same

Guest knowledge is old knowledge

Old knowledge is based on

Wicked soul easy living and revenge and breaking

Mind living of getting much more than other

In = {Wicked soul easy living and revenge and breaking

Mind living of getting much more than other}

Out = {Wicked soul easy living and revenge and breaking

Mind living of getting much more than other}

Here is yin and yang do not harmony

But if yin and yang harmony is

Yin=yang

Yin- yang =0

Yin is inside host

Yang is guest in inside

Here is yin and yang harmony are not same

Yin is inside host, host knowledge is creation of knowledge

Silence and clean clear

So then

Here is yin and yang harmony

Yin host is in

Yin guest is out

In≠ out

In host is depend on creation of knowledge

Out guest is depending on old knowledge

In = {righteous soul it shares time with other, help other, but also doing real love other} = host

Out = {Wicked soul easy living and revenge and breaking

Mind living of getting much more than other} = guest

Host knowledge is creation of knowledge

Guest is old knowledge

Yin- yang = 0

In this formular

Yin is host

Yang is guest

{righteous soul it shares time with other, help other, but also doing real love other} of yin host + {Wicked soul easy living and revenge and breaking, Mind living of getting much more than other} of yang guest = 0; cosmos law

=

{Yin host righteous soul} + {yang guest wicked soul, mind living} = 0; of cosmos law

This is yin and yang harmony

Yin- yang =0

{Host knowledge of creation of knowledge 100%} – {Guest knowledge of old knowledge 100%} = 0

{Silence and clean clear of host}- {loudly and dirty of guest} =0

To be completion of this formular

{it shares time with guest, help guest, and doing real love guest} - {easy living, getting much more than other}= 0

To be 0 of silence and clean clear then,

Host 100% creation of knowledge help and doing real love changed

Guest feeling silence and clean clear of excitement, so that

It must be changed

Host 100% act to guest feeling excitement and silence and pleasure

Then,

In the yin and yang harmony

Host yin in inside to the guest in inside of yang creating excitement

and pleasure of guest yang

Here is

Host yin is silence and clean clear

Guest yang is excitement and pleasure

Yin-yang = 0

{Host yin is silence and clean clear} – {Guest yang is excitement and pleasure} = 0

Cosmos law 0 is silence and clean clear of excitement and pleasure

This is yin and yang harmony result

To be this result,

Host knowledge and guest knowledge

Host knowledge to be ∞

Guest knowledge to be $1/\infty$

So then,

Host knowledge is not contaminated from guest knowledge

Host knowledge 100% to guest knowledge 0%

So then,

A living of yin and yang harmony

Then

Yin- yang =0

Yin is host knowledge 100% - yang of guest knowledge =0

0=yang-yin

Yang is host knowledge 100% - yin of guest knowledge =0

A living is always changed from yang to yin but also yin to yang

But sure, is yin and yang harmony

Host knowledge 100% this is really clear

Do not carry guest knowledge in the host place of host knowledge

This is really critically important

This is required case story

Work place is out

Home is in

Then,

Work place is yin is guest, a yin gets a huge guest knowledge

Bit of a yin move to host place of yin, then, here is nothing guest knowledge, so that a living of yin do excitement and pleasure of host yin role play,

Then, a yang host place is in the home, a guest of yang to be treat as 100% of host knowledge treat hospitality, so that a guest of yang to be feel in excitement and pleasure

If then this

{Yin host knowledge 100%}- {yang guest} = yang feeling in excitement and pleasure = cosmos law feeling silence and clean clear of 0

This is really important is

Host knowledge 100% perfect nothing guest knowledge in the host place.

Every day new with me?

Cosmos is every day is new

But if me is not new

If me is new

Every day new completion is

Every day new + {me is new} = cosmos completion

Every day new + {me is not new} = cosmos incompleteness

Truly

Cosmos is all new

Cosmos is all completion

All of variance is me

New me or not new me

Here me new is silence and clean clear me

Here is not new is loudly and dirty me

New is connect to creation of knowledge

New is not old knowledge

To be new

Every day every second do forgive and do real love

Every time do forgive and do real love other

Forgive after scare in the place of residue site

So that it needed to forgive and do real love

New is

Forgive and doing real love

Creation of knowledge

Silence and clean clear

Not new is

Do not forgive and doing not real love

Old knowledge

Loudly and dirty

Old knowledge is

Relative with residue which is loudly and dirty

Every day new is keeping cosmos law

But me is variance

Me is sometimes is silence and clean clear

Me is the other time is loudly and dirty

How to live in this macro concept world

Keep old

11111111111111111111

But 010101010101 of changing every day every day new

This is clear

Every day is new

So that a living is living

That is to be done(順理)

Me to be every day new

Me must be living forgive and doing real love other

Then, keeping doing then

In me

Keep decreasing residue of old knowledge

Then

Me

Feeling silence and clean clear

Everyday me is new

This is relative with bubble of creation of knowledge

Cosmos law is new + {silence and clean clear of me + everyday new}
= bubble of creation of knowledge

Forgive = decreasing residue of old knowledge

Doing real love = bubble of creation of knowledge

{Cosmos law is new + me is new} feeling is

Silence and clean clear of bubble of creation of knowledge

Here is creation of knowledge is

New

Creation of knowledge is new

Every day is new is creation of knowledge feeling

So that

Cosmos law new + {me creation of knowledge new} =

This is really feeling new

Every day new is every day is beginning

It means that every day is beginning day of young

Every day new is every day young

This living is really excitement and pleasure

This is feeling of real living

Every day new is real me

This is to be done (順理)

To be done(順理) with no energy

To be done + {no energy} = useful energy creating

Not to be done + {energy} = useless energy consuming

To be done (順理) + {no energy} = useful energy creating growing

Now to be done + {energy} = useless energy consuming does not grow

To be done (順理) + {no energy} = useful energy creating growing
runs to the end of righteous soul living in destination place

Not to be done + {energy} = useless energy consuming does not grow
do not runs to the end of righteous soul living in destination place but
fallen to the wicked soul living in destination place

To be done(順理) + {no energy} = useful energy creating growing
runs to the end of righteous soul living in destination place of
completion

Not to be done + {energy} = useless energy consuming does not grow
do not runs to the end of righteous soul living in destination place but

fallen to the wicked soul living in destination place of incompleteness

To be done(順理) + {no energy}

No energy = righteous soul of creation of knowledge

This is

Higher to lower possible

Righteous soul = $1/\text{mind} \propto$

completion

creating growing because energy do not use lower to high

but energy is only for helping growing with other

no energy = silence and clean clear of creation of knowledge

to be done (順理) + {no energy}

= it shares time with other, help other, but also doing real love other

= living is also do not any energy

= the rich help the poor, so that rich will excitement helping the poor

= the rich + {no energy} = the poor + {no energy}

Because energy is creating with do be done(順理)

Not to be done + {energy}

Energy = enforce to be done, so then

On purpose to be done so that it is needed to energy

Lower to higher impossible

Mind ∞

Incompletion

Creating do not growing because all energy used up for lower to higher, so that is not help growing with other

Energy consuming = loudly and dirty of residue of past old knowledge

Not to be done + {energy} = there is no energy to help other

= it not time to be shares other, do not help other, but also do not doing real love other

= living is to be needed energy

= the rich do not help the poor, so that the rich only for rich sustainment for that the rich feel fear of losing it

= the rich + {energy} = the poor + {energy}

Because energy is consuming with is not to be done

**{Righteous soul + creation of knowledge + interesting}
= growing end= completion**

Righteous soul

It starts from righteous soul living in destination place

At now living at macro concept world only seen body, but righteous soul is not seen to us

Creation of knowledge

It created at silence and clean clear of bubble of creation of knowledge

This is creation of knowledge to be beginning

But as walking on the righteous soul living in destination place

Meet a righteous soul, who is much more than me, then a righteous soul helps me a creation of knowledge, truly righteous soul me also junior of a righteous soul I can help creation of knowledge

In this time, I get a creation of knowledge then a righteous soul to be getting from cosmos law of righteous soul living energy

If I help to a righteous soul of a creation of knowledge then, I must be getting from a cosmos law of a righteous soul living energy

Interesting

Running to the righteous soul living in destination place

Then, as growing to the completion

Then, it also growing interesting

Interesting is derived from an ordained role play in the macro concept world then, ordained working, it should be helped from a righteous soul creator

It is really interesting ordained world of role play

Ordained role plays all difference to live on in macro concept world

If a righteous soul meets an ordained work of role play then, a righteous soul living is safer living and growing

An ordained work of role play is a kind of vertical time running

Depth $\infty \times$ width $1/\infty =$ constant

Here is increasing of growing interesting

To the horizontal time running

Width $\infty \times$ depth $1/\infty =$ constant

But here is not interesting of growing interesting

Because here living is revenge and breaking

Growing end is

= {righteous soul of unseen world living} + {creation of knowledge with righteous soul living energy} + {ordained role play and interesting}

= completion

Righteous soul

Creation of knowledge

Interesting

This is kept living running to the righteous soul living in destination place

Interesting is truly derived from righteous soul of creation of knowledge behavior

Interesting is

Silence and clean clear

Interesting is

It shares time with other, help other, but also doing real love other

This is interesting source

Interesting is feeling from a guest by helping host

Whoever sometimes host the other times guest

So that,

Role play of ordained working is best work, so that

Supply to the guest then, guest feel in interesting

But also, host feeling interest is feeling

Silence and clean clear of bubble of creation of knowledge

Righteous soul living in destination place

Creation of knowledge

Righteous soul living energy

Interesting

This is righteous soul living in destination place as same as

Cosmos space and me

Cosmos space

Me

Me is living in the cosmos space

Me is at cosmos space

So that me is $\{\text{me} + \text{cosmos space}\} = \text{me}$

To do that cosmos space accept me

Or me do not give any hard to the cosmos

So, then!

$\text{Me} + \text{cosmos space} = 0$

So that here is

Me is 0

Cosmos space is 0

But if me is not 0

Then

$\text{Me} + \text{cosmos space} \neq 0$

Possible cosmos space is to be 0 is constant

But me is variance so that

If not = 0 then,

Possibly

Me is not 0

So that

$\text{Me} + \text{cosmos space} = \text{me}$

Here is

$\text{Me} + \text{cosmos space} = 0$

$\text{Me} + \text{cosmos space} \neq 0$

$\text{Me} + \text{cosmos space} = \text{me}$

If me is silence and clean clear then, me is 0 of residue, so that

A silence and clean clear are residue 0

So then

Silence and clean clear of bubble of creation of knowledge living is helping from a righteous soul living in destination place a creator

So that

Silence and clean clear of bubble of creature= righteous soul

Righteous soul is space of silence clean clear

In the

Me + cosmos space =0

Here is me = {Silence and clean clear of bubble of creature= righteous soul} = residue is 0 + {Cosmos space is silence and clean clear of also residue of 0} =0

Me is righteous soul then, me is not any debt to the cosmos space

{Me =0 + cosmos space =0} =0

So that

$0 + 0 = 0$

This is righteous soul = { $0 + 0 = 0$ }

Righteous soul + cosmos = 0

So then,

Righteous soul does not see cosmos

Cosmos does not see righteous soul

Righteous soul = cosmos = space of silence and clean clear

=0=0=0

So then

Righteous soul living in destination place also

=0=0=0

Righteous soul living in destination place livings are

=0=0=0

This is micro concept world

But

Me + cosmos space $\neq 0$

Me + cosmos space = me

As me is residue is not 0 so that

Residue is not 0 to be debt to the cosmos space

Me + cosmos space is not 0, then infer that 1

Then

Me + cosmos space =1

This is macro concept world

As me is debt to the cosmos space

Cosmos space is credit bond to me

Me is debt to the cosmos

Cosmos is credit bond to me

Cosmos credit bond required me to be pay debt and do silence and clean clear

Cosmos credit to be 0

Then, me living from 1 to 0

Me + cosmos space $\neq$ 0

Me + cosmos space = me

Here me is not 0, then 1

But cosmos space is constant of 0

$1+0=1$

This is macro concept world

So then

Macro concept world to micro concept world

Then

Me is 1 to 0, that is

Macro to micro concept world changed

Cosmos space and me

Me living is 1 to 0 living is righteous soul living completion

If me living fail from 1 to 0

Then, this is failing completion to be righteous soul still 1

If me living is 1, me debt to the cosmos space

So that

Me living is depend on cosmos space tolerance

If cosmos space tolerance is huge then me living is clear

But if cosmos space tolerance is small then me is living is to be not clear

Even cosmos space still tries to be kept in silence and clean clear

But me do not now cosmos need to be silence and clean clear

Then

Me living is depending cosmos space, cosmos law

As living me is righteous soul living then

The living is silence clean clear of bubble of creature of knowledge

This living is

$0=0=0$

Righteous soul living is not depending on cosmos space or law

Because righteous soul me do not debt to the cosmos law

How to live in the macro concept world?

Even in the macro concept world, but living righteous soul living is

$0=0=0$ micro concept world of righteous soul living

Here is $0=0=0$ is righteous soul living orbit to the righteous soul living in destination place

This is to be done(順理)

$1=1=1$

This is not to be done

From not to be done to be done(順理)

$$1-1=1-1=1-1=0=0=0$$

Here is derived from

$$\text{Mind} = 1/\infty = 0 = \text{residue} = 0$$

There is no mind There is no me

Poor and righteous soul = all giving to the poor to be being residue to be 0

This is

To be done (順理)

Yin and yang harmony is safe and complete living

Macro concept world living completion

Safe returning to the righteous soul living in destination place

Righteous soul me living in the macro concept world living

Truly

Macro concept world

Wicked soul living easy living for it revenge and breaking other

Mind living getting much more than other

Righteous soul living

It shares time with other, help other, but also doing real love other

Righteous soul me living

To live safe and completion living in the macro concept world voyage

This living is hard only yin living, only yang living

Righteous soul designed to live yin and yang meet a living yin and yang harmony living in the macro concept world

What is yin and yang harmony

Truly

Yin living possible

Yang living possible

Yin and yang living of righteous soul living is completion

Creation of knowledge from $1/\infty$ to ∞

Righteous soul living energy from $1/\infty$ to ∞

To do this

Yin and yang combined to one to help both yin and yang each

Completion of righteous soul living

Yin creation of knowledge ∞

Yin righteous soul living energy ∞

Yang creation of knowledge ∞

Yang righteous soul living energy ∞

This is possible in the macro concept world

As living yin and yang harmony living only

This is creator designed

So then

Inside and outside

If yin one living can safe in the inside but outside is not safe

If yang one living can safe in outside but not in inside

So that

Yin and yang meet

Both unsafe living help both safe living

So that

Yin and yang harmony

Yin defend wicked soul offence in inside

Yang defends wicked soul offence in outside

So then

Yin is host in inside

Yang is host in outside

Truly infer that

In the real of macro concept world

Yin living in and out

But also, yang living in and out also

So that

Macro concept world

And micro concept world

Macro concept world shown to be forgotten

But micro concept world yin and yang harmony is strong rule

So then,

Macro concept world living yin and yang harmony living forgotten
but macro concept world safe living is only yin and yang harmony

Here is safe living is

Yin completion of righteous soul mission

Yang completion of righteous soul mission

So then

Macro concept world forgotten yin and yang harmony

Righteous soul safe living and righteous soul living mission

Completion possibility ratio is lower

If a righteous soul living in yin and yang harmony living

Must be possible clear of righteous soul living completion and safe living in the macro concept world to run to the righteous soul living in destination place

It is decision and choose how to live

A living keeps a living yin and yang harmony then the living righteous soul living way

But a living does not keep a living yin and yang harmony then the living not a living of righteous soul living way

Righteous soul yin and yang harmony living is

Yin living in inside host, so then yin responsibility defense wicked soul offence in inside

Yang living in outside host, so then yang responsibility defense wicked soul offence in outside

While

To live defense wicked soul

Host righteous soul yin and yang needed

Creature of knowledge

Righteous soul living energy

So then

If

Yin of host

Creation of knowledge ∞

Righteous soul living energy ∞

Then, yin living host in inside strong defense so that wicked soul loss combat in inside

If yang of host

Creation of knowledge ∞

Righteous soul living energy ∞

Then, yang living host in outside strong defense so that wicked soul loss combat in outside

If this

Then

Yin and yang harmony

Yin safe and growing to completion of righteous soul living voyage

Yang safe and growing to completion of righteous soul living voyage

In the macro concept world

Yin and yang harmony living is micro concept world

Strong must be known living ways

Strong yin host in inside

Then, yin living is strong so that cover all of variable guest in excitement and pleasure

Strong yang host in outside

Then, yang living is strong so that cover all of variable guest in excitement and pleasure

This is only possible in the yin and yang harmony

Yin and yang harmony living is safe and only completion living in the macro concept world, but also the living is excitement and pleasure

In the macro concept world yin and yang living body living, this

living is really excitement and pleasure yin and yang harmony

Because

In the micro concept world dreamed to live yin and yang harmony of excitement and pleasure of living

Here macro concept world living

Yin living is {righteous soul of yin with body}

Yang living is {righteous soul of yang with body}

Yin and yang harmony is pleasure of excitement

{righteous soul of yin with body} + {righteous soul of yang with body}

= yin and yang harmony of excitement and pleasure

Safe living and completion of

Both yin and yang

Creation of knowledge ∞

Righteous soul living energy ∞

{righteous soul of yin with body inside host defense wicked soul} +
{righteous soul of yang with body outside host defense wicked soul}

= {in the yin completion defense wicked soul, so that a guest living

without any hard of wicked soul} + {In the yang completion of defense wicked soul, so that a guest living without and hard of wicked soul}

=yin and yang harmony of excitement and pleasure

Yin and yang harmony is safe and complete living

Is only

Yin and yang harmony living

This living clear for yin and yang both completions to live at righteous soul living in destination place

The condition of righteous soul living in destination living is

Creation of knowledge is ∞

Righteous soul living energy ∞

This is completion only

Yin and yang harmony only

Righteous soul living completion it needs to defense

In the macro concept world righteous soul living

Righteous soul to wicked soul

Mind is variance

Righteous soul living in

It shares time with other, help other, but also doing real love other

Wicked soul living

Easy living with revenge and breaking other

Mind living

Getting much more than other

In the macro concept world living me is

{Righteous soul + wicked soul + mind + body}

So that macro concept world living me

Appeared up righteous soul, wicked soul and mind living

Here is righteous soul living completion is righteous soul running to

the righteous soul living in destination place

So then,

Righteous soul running to the righteous soul living in destination place, then

Righteous soul defense wicked soul offence

If righteous soul loses to the wicked soul

Then, righteous soul cannot run to the righteous soul living in destination place

Righteous soul $1/\infty = \text{mind } \infty$

Mind $1/\infty = \text{righteous soul } \infty$

Righteous soul is connected to mind as enemy

Mind decreasing then, righteous soul to be increasing

But

Wicked soul $\infty = \text{mind } \infty$

Wicked soul is connected with mind as friend

As mind increasing then

{mind ∞ + wicked soul ∞ } = help wicked soul strong

So then,

Righteous soul to runs to the righteous soul living in destination place

Righteous soul defense wicked soul

But mind is variance

Truly

Righteous soul wicked soul from micro concept world

Mind is from macro concept world

So that

Mind with body is friend also

Body getting much more than other is to help body

This is only for macro concept world only

So then, to the righteous soul living is really hard and dangerous

{Mind and body} fear end of macro concept world is mind and body are disappeared at macro concept world

So that mind livings are all fear of end of macro concept world

But

From micro concept world

Righteous soul is running to the righteous soul living in destination place

So then,

Righteous soul survives in the macro concept world

This is required defense to the wicked soul

Righteous soul to wicked soul war

Mind living is friend with wicked soul

Mind living is enemy with righteous soul

So that

Now here macro concept world

Mind living 100% living then

{Wicked soul + mind} strong

In this case

Righteous soul loses war righteous soul to be disappeared

But

Mind is 0%

{wicked soul + mind} weak

Righteous soul

{righteous soul + righteous soul 10%}

Strong righteous soul

Righteous soul survives

Righteous soul runs to the righteous soul living in destination place

In the macro concept world

Mind level livings all 100 % of offence to get much more than other

Here is mind level must be inferring that

As mind 100% so that righteous soul 0%

Here is wicked soul energy is strong

= {mind 100+ wicked soul strong}

= mind level livings must be gets it, but also righteous soul loses

So that

Mind; getting much more than other get it

But righteous soul losing

So that

Wicked soul survives and occupied

But righteous soul disappeared

As that

A mind living with wicked soul living

Wicked soul living is

Easy living for revenge and breaking other

Mind + wicked soul

{getting much more than other + easy living for revenge and breaking other} = wicked soul living

Mind living expect mind 100% of righteous soul living of excitement and pleasure

But the mind living 100% result is righteous soul living to be disappeared but there is no excitement and pleasure only revenge and breaking other only

In the macro concept world

All livings run to be getting much more than other

Most livings run to be wicked soul living is same

100% of offense to get much more than other of mind

Is helping wicked soul living strong

Righteous soul 0% mind 100% is

Righteous soul defense is 0%

Wicked soul offense is 100%

Then,

Righteous soul living losing war to the wicked soul

So that

Here is

Wicked soul me is occur

Easy living only with revenge and breaking other

Truly all of macro concept world living mind 100% and righteous soul living, so that

All mind living does not defense wicked soul but all offense to get much more than other

This is righteous soul living really sorrowful because lost chance to run to the righteous soul living in destination place

This time also runs to the wicked soul living in destination place

Here important creation of knowledge

To be done (順理)

Righteous soul defense wicked soul

So that mind to be $1/\infty$

Then

Righteous soul to be ∞

Then, it is sure defense to wicked soul

So that righteous soul survives

Righteous soul keeps running to the righteous soul living in destination place

Righteous soul living completion is urgent

In the righteous soul living in destination place

Watch a righteous soul living

A righteous soul try to get then, in the righteous soul living in destination place a righteous soul feel urgent and pray to help macro concept world righteous soul survive of mind to be $1/\infty$ of to be done(順理)

In the righteous soul living in destination place

A righteous soul feels in excitement and pleasure of a macro concept world righteous soul living in

Righteous soul living behavior

“It shares time with other, help other, but also doing real love other”

This is

Completion of righteous soul living urgent to the righteous soul

Because here macro concept world living main is as living righteous soul, and safe returning to the righteous soul living in destination place

In the macro concept world main work is righteous soul living

So that

Righteous soul defense to wicked soul

By mind living $1/\infty$

Here macro concept world me

Can do mind living ∞ or mind living $1/\infty$

If righteous soul me living mind $1/\infty$ then

Righteous soul can defense to wicked soul

And then safe survive righteous soul and in the end righteous soul

safe returning to the righteous soul living in destination place

My living now in here is

Survive as righteous soul

Righteous soul defense to wicked soul

And living righteous soul

Righteous soul me running to the righteous soul living in destination place

In the cosmos living me righteous soul survive

In the cosmos

Living me

Original cosmos silence and clean clear

Living me in the cosmos

Cosmos feel that cause of me, changed silence clean clear to some loudly and dirty

In the cosmos space

Living me is living

Then cosmos law permits me living in space

Living me living at the cosmos

Here is cosmos law permits me

Living me in the cosmos, is variance

My living goes with cosmos law

My living is not harmony with cosmos law

Cosmos law permits me living in the cosmos

Then cosmos law expects me to help cosmos

So here is expect is

Helping cosmos to be original cosmos of

Silence and clean clear

Cosmos expects me

Then if I try to help cosmos

At first me living is first harmony with cosmos

Cosmos law expect me myself to be living

Silence and clean clear

Me living is silence and clean clear

Cosmos origin is silence and clean clear

This is completion of cosmos expect me helping cosmos

Me living is not silence and clean clear

Then me living do not help cosmos

Here

If I help cosmos to be silence and clean clear

Then cosmos help living me in the cosmos

But if not help cosmos to be silence and clean clear

Then cosmos do not help living me in the cosmos

Living me in the cosmos

If I help cosmos so that helping from cosmos then

Cosmos law helping is

Real me, righteous soul me, dream and mission clear

Righteous soul me urgent needing

Righteous soul living energy

As I help cosmos to be silence and clean clear

Then, cosmos law helping me to get

Righteous soul living energy ∞

In the cosmos

A living does not help cosmos to be silence and clean clear

Not real me, wicked soul me, do not know mission clear

Wicked soul does not know, forgotten righteous soul living

So that

Cosmos do not help wicked soul me to get

Righteous soul living energy

Wicked soul does not know how to live in the cosmos

This is not real me living

Even living in the cosmos

Wicked soul does not harmony with cosmos

Wicked soul this urgent chance to go to the righteous soul living in destination place, but still do not know it

Wicked soul role play

As righteous soul running to the righteous soul living in destination place, wicked soul role, revenge and breaking righteous soul

This is only

Process helper or do not helper living so called as the tool

Righteous soul against only

Righteous soul living defense wicked soul revenge and breaking

In the cosmos law

As righteous soul help cosmos to be silence and clean clear

But wicked soul does not help cosmos to be silence and clean clear

{Righteous soul + cosmos law helping} defense {wicked soul + cosmos law does not help}

In the cosmos righteous soul living real doing is running to the righteous soul living in destination place, that is orbit to the righteous soul living in destination place 0000000000

In the cosmos wicked soul do not real living is out of running to the righteous soul living in destination place, that is out of orbit to the righteous soul living in destination place 0000000

Here is macro concept world

Living me is

Silence and clean clear of righteous soul harmony with cosmos

Residue of loudly and unclear of wicked soul do not harmony with cosmos

Getting much more than other of mind living do not harmony with cosmos

In the macro concept world

Living me is real me, righteous soul me

At first accept cosmos law and helping cosmos to be silence and clean clear

This is only way righteous soul me getting righteous soul living energy

This is truth

In the macro concept world

Righteous soul living behavior

“It shares time with other, help other, but also doing real love other”

This is help other to be feel silence and clean clear

But also, other to be being excitement with my righteous soul living behavior

But also, righteous soul me excitement with helping cosmos silence and clean clear

As that

Righteous soul + cosmos heling of righteous soul living energy ∞

Wicked soul + do not help cosmos of righteous soul living energy $1/\infty$

Mind living + do not help cosmos of righteous soul living energy $1/\infty$

Here is strong point is

Cosmos law is host of cosmos

So that

Cosmos decision is

Cosmos law give permission to living in the cosmos

So then

Cosmos law see keep a cosmos law or not

If keep a cosmos law then keep act of cosmos living

But if not keep a cosmos law in the cosmos, then it must be possible
do not hold of permission living in the cosmos

Here is strong possibility

Righteous soul keeping living in the cosmos

Wicked soul and mind possibility do not live in the cosmos

In the cosmos how to live is in here appeared

But sorrowful wicked soul and mind livings do not know it

In the cosmos only survive living is righteous soul

Other of wicked soul and mind living do not survive living

“In the cosmos living me righteous soul survive”

Righteous soul me defense wicked soul

How to defense helping from cosmos

How to be heling from cosmos

Righteous soul help cosmos to be silence and clean clear

How to do is helping cosmos

In the macro concept world

A righteous soul living is

Silence and clean clear of bubble of creation of knowledge

Righteous soul living is

{Silence and clean clear + Creation of knowledge} helping {cosmos to be silence and clean clear}

= {Silence and clean clear + Creation of knowledge} + {righteous soul living energy}

helping {cosmos to be silence and clean clear}

cosmos helps to righteous soul righteous soul living energy

= {Silence and clean clear + Creation of knowledge} + {righteous soul living energy} = "In the cosmos living me righteous soul survive"

In the macro concept world

Living is keeping a cosmos law for sustainment permission from cosmos law on keep living in the cosmos

But also, a living help cosmos to be silence and clean clear

This is only way of "In the cosmos living me righteous soul survive"

Survive righteous soul me running to the righteous soul living in destination place

It is to be done (順理)

Debt to the cosmos

Macro concept world living me is

{righteous soul + wicked soul + mind + body}

As that

In the macro concept world to be seen

Body

So that at first body must be living in the cosmos

So then

As that of living in the macro concept world itself is debt living

{righteous soul + wicked soul + mind + body} debt to cosmos

How to pay debt to the cosmos

Cosmos really want to be beginning of silence and clean clear

Cosmos law is to keep silence clean clear

Cosmos law

Helping to the help cosmos to be silence and clean clear

As the righteous soul living energy

But do not keep a cosmos law is

Do not give righteous soul living energy but give wicked soul living energy

{righteous soul + wicked soul + mind + body}

Pay debt is helping cosmos silence and clean clear

Do not paying is not help cosmos silence and clean clear

{righteous soul + wicked soul + mind + body} this living interaction

Paying debt to cosmos

Strong keep a cosmos law getting righteous soul living energy

Do not paying debt to cosmos

Do not strong keep a cosmos law wicked soul living energy

If now living in the macro concept world wicked soul living then

Infer that before living of me

Do not paying debt to the cosmos

So that I'm here macro concept world

As

{righteous soul + wicked soul + mind + body}

So that now living me debt before world debt

But also

If now my living is still is

{righteous soul + wicked soul + mind + body}

Now living also keep increasing debt

Because of my living is not keep a cosmos law

Now my living is in the cosmos space

But do not keep a cosmos law

Still now living me

Do not know

Cosmos law is micro concept world also know my macro concept world debt

If this macro concept world living still

{righteous soul + wicked soul + mind + body}

Cosmos debt to be ∞

Then now living also can't safely returning to the righteous soul living in destination place

What is cosmos law to be silence and clean clear helping

Make less loudly and dirty of wicked souls and mind livings

{righteous soul 10% + wicked soul 60% + mind 30%+ body}

= debt to 90% to the cosmos

Then,

Now living me is loudly and dirty debt to the cosmos

Here is

Macro concept world

Me living responsibility is at first living silence and clean clear

Then

My debt to be decreasing

Debt paying to the cosmos is

To be changed now living is

{righteous soul 70% + wicked soul 20% + mind 10%+ body}

= decreasing debt to the cosmos 30%

Righteous soul 70% is paying debt

Wicked soul 20% + mind 10% = 30% is debt

Wicked soul living is easy living only wicked soul easy living using
revenge and breaking other, its product loudly and dirty to the cosmos

Cosmos debt

Mind living is getting much more than other all used up time it

Do not know righteous soul living behavior

“It shares time with other, help other, but also doing real love other”

Its product loudly and dirty to the cosmos

Cosmos debt

If living righteous soul living

Silence and clean clear of bubble of creation of knowledge

So that

Righteous soul living is

Silence and clean clear living

This is same as cosmos living

Righteous soul me = cosmos = silence and clean clear

So that

Righteous soul living is keeping a cosmos law

And helping cosmos to be silence and clean clear

Righteous soul living paying debt to the cosmos

It is really urgent important

Righteous soul living paying debt to the cosmos

Cosmos feel that just silence and clean clear with me

Cosmos do not see me

Because cosmos and me is same

This is called as

物我一體; me and cosmos is same

Here is keep paying debt to the cosmos

If now living is righteous soul living

At now me is because of it, before world result

I must pay before world debt

Then why I'm here problems solving

How to live problems to be solving

As the righteous soul living

Then, paying before world debt now living debt to the cosmos

In this result is

{Before world debt 0 + now living debt 0} =

{why I'm here problem + how to live problems} = solving

How to live problems answer is

Living paying cosmos law and helping cosmos to be silence and clean clear living

That is righteous soul living

If living righteous soul living

Then

Righteous soul living me is

{righteous soul 100% + wicked soul 0% + mind 0%+ body}

= decreasing debt to the cosmos 0%

= {righteous soul 100%+ body} = debt to cosmos 0%

= {righteous soul 100} in the time of end of macro concept world

Without zero debt to cosmos

= safe returning to the righteous soul living in destination place

Righteous soul safe returning to the righteous soul living in destination place with debt to cosmos law to 0

This is now living me and cosmos is interaction

Living righteous soul paying debt to cosmos

Helping cosmos silence and clean clear

Cosmos helping me to live righteous soul living

Cosmos helping me to safe returning to the righteous soul living in destination place

This is to be done(順理)

Head is antenna

Head is top the body

Head meet high position

Head of antenna accept necessary information

Head of antenna hit and know and feeling dangerous

This is not brain but antenna role of head

Head of antenna transmitting and receiving

Transmitting to cosmos

Receiving from cosmos

Head of antenna locate at transmitting to cosmos, receiving from cosmos, this information combined to one, which is location of now

Head of antenna transmitting to the cosmos on now silence and clear of bubble of creation of knowledge

So that, cosmos know that creation of knowledge

By then, head of antenna receiving from cosmos permit me doing something

Here now livings

Decision of what to do is

Righteous soul of silence and clean clear of bubble of creation of knowledge, this is only a righteous soul inside creation of knowledge

So that, head of antenna transmitting and receiving creation of knowledge to be behavior then,

Behavior to be decision

This decision is to be accept

Head of antenna with cosmos and righteous soul living in destination place creator

If a decision is

{Silence and clean clear of bubble of creation of knowledge + through head of antenna + righteous soul living in destination place creator +keep a cosmos law} = decision to be completion

If a decision is

{loudly and dirty of residue of old knowledge + through head of antenna + wicked soul living in destination place + do not keep a cosmos law} = decision to be not complication

Head of antenna

Feeling and knowing so that

If living me is righteous soul living then

My creation of knowledge to be “Transmitting” to other

So that, other head of antenna receive from me my antenna

It is really urgent

If my living is based on silence and clean clear of creation of knowledge then other antenna receive righteous soul of creation of knowledge, so then other to be helping to live righteous soul living

But if my living is loudly and dirty of residue of old knowledge then, other antenna receives wicked soul of knowledge, then then other to be helping to living wicked soul living

Dead of antenna is really sensitive because antenna is basic information to do or not do, doing is act then, it really acts of decision of doing action, so that, antenna is really first information, but also, antenna will help prepare of not to be dangerous facing, to live safe living in the macro concept world

Head is antenna

Head of antenna to cosmos and righteous soul living in destination creator

Head of antenna to be help doing behavior

So that

A living in the macro concept world

= {Transmitting to cosmos, receiving from cosmos} + {my creation of knowledge transmitting other + other creation of knowledge receiving} = a living behavior of righteous soul living = a righteous soul living growing to creation of knowledge ∞ and righteous soul living energy ∞

It is really urgent and important

If an antenna sensitive so that receiving other behavior

Then, all of macro concept world livings behavior is source of a living information, this is keeping influencing a righteous soul living growing creation of knowledge ∞ and righteous soul living energy ∞

In the cosmos law and righteous soul living in destination place creator feeling is really sensitive me living behavior

If my living is righteous soul living then, righteous soul living in destination place creator feel excitement and cosmos law help a righteous soul living behavior so that cosmos will help my living to be completion of macro concept world

Cosmos and creator

Infer of it is cosmos and creator will receive information huge number of antenna of head, cosmos and creator will be known macro concept world righteous soul living world or wicked soul living

So that

Cosmos and creator

Cosmos antenna to my antenna, creator antenna to my antenna

Transmitting and receiving both side information

So that

A living in the macro concept world is righteous soul or wicked soul is decided through antenna

So that head of antenna function is also really critically important

Head of antenna receive and transmitting a human creation of knowledge to cosmos and creator creation of knowledge

This is information help a righteous soul doing “it shares time with other, help other, but also doing real love other”

If Antenna function is good

Then, a righteous soul living behavior to be feeling in excitement

Because righteous soul living behavior all to be influence

Wicked soul living, righteous soul living

Yin and harmony with cosmos law

Yin and yang harmony

Cosmos law

yin and yang harmony are living way of righteous soul between yin and yang

cosmos law is cosmos living silence and clean clear of law

so that

yin living

yang living of segregating living possible, but this living is not righteous soul living

righteous soul living in yin and yang harmony with cosmos law

so that

yin = yang

yin and yang are all to be equal

in the yin and yang harmony with cosmos law formular

yin-yang = 0

0=yang-win

This is yin and yang harmony with cosmos law

0 of cosmos law is

Unburnt residue to be 0 of silence and clean clear of cosmos law

It means that in the cosmos all silence and clean clear

So that

Yin and yang living in the macro concept world also to be silence and clean clear living

How to be done (順理)

$$\{+yin - yang=0\} - \{-yang + yin=0\} = 0$$

yin-yang = 0

+yin to be 0, yang using yin's energy then yin to be 0

-yang to be 0, yin help yin energy to be yang to be 0

Then

$$0-0=0$$

Of yin and yang harmony

To be harmony with cosmos law 0

+yin by helping – yang, yang use +yin energy so that +yin to be 0

This is really help – yang to +yin, because to be cosmos law completion it must be +yin to be 0

But also,

-yang by helping +yin, - yang use +yin energy so that -yang to be 0

This is really help +yin to -yang, because to be cosmos law completion it must be -yang to be 0

$$0-0=0$$

Rewritten

{+yin by -yang helping +yin to be 0}- {+yang to be 0 by helping +yin}
= keep a cosmos law=cosmos feeling silence and clean clear

This equation is yin and yang harmony

This is righteous soul living of yin and yang harmony

This equation

{+yin by -yang helping +yin to be 0}- {+yang to be 0 by helping +yin}

= keep a cosmos law=cosmos feeling silence and clean clear

Righteous soul yin and yang

$\{+yin=0\}-\{-yang=0\} = \text{cosmos } 0$

This is yin and yang harmony run to the righteous soul living in destination place on the orbit of righteous soul

This is

To be done(順理)

It is simple

Yin and yang harmony is

$\{+yin=0\}-\{-yang=0\} = \text{cosmos } 0$

$0-0=0$

If live this way then, a righteous soul yin and yang safe returning to the righteous soul living in destination place

day 1 night 0 help each other

day is 1

night is 0

day to night 1 to 0

night to day 0 to 1

this must be interpretation

as yin and yang harmony tool

day 1 is yang

night 0 is yin

day to night 1 to 0 is from yang to yin

night to day 0 to 1 is from yin to yang

then

day host is yang

night host is yin

day guest is yin

night guest is yang

day host yang worker all effort to do work

day guest yin to be helped from yang

night host yin worker all effort to do world

night guest yang to be helped from yin

this must be interpretation

as yin and yang harmony with cosmos law

day 1 is yang

night 0 is yin

yin= yang

yin and yang are equal

yin- yang =0

0= yang – yin

Here is 0 is cosmos

0 of cosmos is silence and clean clear, 0 of residue in the cosmos

So that $0 =$ silence and clean clear of cosmos

Yin- yang = $0 =$ silence and clean clear of cosmos

To be correct this equation is

Yin must be 0

Yang must be 0

This is really urgent

To this completion

$$\{\text{yin} - \text{yang}\} - \{-\text{yang} + \text{yin}\} = 0$$

$$\text{Yin- yang} = 0$$

Yin help to yang to be same with yin

Here is same is $\text{yin}=0$ $\text{yang}=0$

Then,

Yin give to -yang to make $\text{yang}=0$ and $\text{yin}=0$

So that, yin is actor of helping

$$0-0=0$$

Yin-yang =0

Yin is night =0

Yang is day =1

Night of Yin - day of yang = 0

To be fit cosmos law

Night of yin help -day of yang to be 0

{Night of yin = helper to -day to be 0} =0

{- day of yang = to be helped from night of yin night of yin to be 0}
=0

So that

{Night of Yin =0}- {- day of yang =0} = 0

Here is yin of night help at night -say of yang to be 0

So that

Day 1 to be night 0

-yang +yin = 0

Here equation is

Yang is helping +yin to be 0

-Yang must be getting from +yin, -yang to be 0, -yang must getting from +yin, so that -yang to be 0, then yin is 0

0-0=0

The same as

{-yang of day} + {+yin night} =0

As same as day to night, here is night to day also same

At night yin help yang to be 0

At day yang help yin to be 1

Night help day to be 0

Day help night to 1

Night must be full 0

Day must be full 1

This is to be done of 順理

Day and night harmony

At night to be 0

At day to be 1

So that

010101010 is day and night harmony

If this harmony broken then,

Cosmos law is also broken

Then what happened

Occur problems

So then

At night to be 0

At day to be 1

Is longtime running never ever tired, but keep strong running

This is macro concept world righteous soul living

This is to be done of 順理

In the Host cosmos guest to be done(順理)

Host cosmos is do not changed

Host cosmos is silence and clean clear

Guest me is keep changing

Guest me is loudly and dirty

Cosmos want me do not change and to be silence and clean clear but truly infer that I do not know cosmos expect me to do, so that guest me is loudly and dirty

Guest me is anger hunger shout and revenge and breaking other

Guest me is do not know cosmos law

Host of cosmos expect me keep a cosmos law

Cosmos space is perfectly own by cosmos

So that guest of me is rely on cosmos permit living me

But this simple truth does not know

Guest of me feel any sorry to the cosmos

Cosmos space

Me living in the cosmos space

Cosmos space is host

Me living is guest, rent living

Cosmos space do not change

But guest of me changing

There is but there is no

There is no but there is

If a righteous soul will live harmony with cosmos law, cosmos space

Because a righteous soul silence and clean clear of bubble of creation
of knowledge help living with cosmos

But

If a wicked soul will do not harmony with cosmos law, cosmos space

Because a wicked soul does not live silence and clean clear of bubble
of creation of knowledge but depend on old knowledge which does
not know living with cosmos

So that cosmos with wicked soul living, then cosmos to be hard with wicked soul living in the macro concept world

Truly infer that

Righteous soul is silence and clean clear

Cosmos is silence and clean clear

So that righteous soul is harmony with cosmos so cosmos living is not hard with righteous soul

But

Wicked soul keeps seeing to be seen cosmos law

So that cosmos law is really hard living with wicked soul

Cosmos law expect a wicked soul to be a righteous soul

Cosmos really excitement a wicked soul changed into creating a righteous soul

This is really cosmos excitement

Therefore, a role player of a wicked soul to be righteous soul of righteous soul to be award of righteous soul living energy from cosmos

Cosmos living with righteous soul, wicked soul in the macro concept

world

Cosmos living friendly with righteous soul of silence and clean clear

But

Cosmos living enemy with wicked soul of loudly of dirty

Here macro concept world

Righteous soul and cosmos try to creating macro concept world to be silence and clean clear

But ignorance and depend on old knowledge wicked souls' behavior make macro concept world to be unburnt residue of baggage treat stage, so that macro concept world is really living hard

As increasing wicked souls, they are all loudly and dirty

Living condition is all to be changed silence and clean clear to loudly and dirty

Gradually macro concept world living excitement and pleasure of living decreasing ultimately all to be zero of righteous soul living excitement

In the macro concept world excitement and pleasure is old knowledge and loudly and dirty place excitement

Loudly and dirty excitement is war game which is win or loss who

will be winner is excitement loser is not excitement

But watcher shouting for wishing a team to be winning the game of war, so then wicked souls depend of these old knowledge

But wicked soul does not know

Silence and clean clear, all to be feeling excitement and pleasure

Righteous souls know that how to live excitement and pleasure

Righteous soul living behavior is

Silence and clean clear of bubble of creation of knowledge

It shares time with other, help other, but also doing real love other

So that

In the righteous soul living region is

All livings are to be feeling excitement and pleasure

Here is silence and clean clear of living excitement and pleasure

This is to be done(順理)

To be done (順理) excitement and pleasure of interesting keep running to the righteous soul living in destination place

To be done (順理)

Host cosmos is silence and clean clear

Guest living in the host cosmos space then, guest living me keep a cosmos law this is to be done(順理)

As living of to be done(順理) there is no energy but energy running to the righteous soul living in destination place

As keep a cosmos law

Then, cosmos law help living me in the cosmos space

My running to the righteous soul living in destination place

This is to be done (順理)

To be done is high to low water stream

This is do not any energy but to be done itself to the sea

The same as

A guest living in righteous soul in the space of cosmos

Then, righteous soul runs to the righteous soul living in destination place without any energy this is to be done(順理)

To be done(順理) is

Righteous soul living keeps a cosmos law

Cosmos like to be living silence and clean clear
